Proposal for a

COUNCIL REGULATION (EC)

**applying a multiannual scheme of generalised tariff preferences
for the period 1 January 1999 to 31 December 2001**

(presented by the Commission)

EXPLANATORY MEMORANDUM

The aim of this proposal is to implement the European Community's second multiannual scheme of generalised tariff preferences within the ten-year period covered by the Community offer starting in 1995 and ending in 2004.

The industrial products component of the current scheme will remain in force until 31 December 1998 and therefore the second scheme should be ready to enter into force on 1 January 1999 for a period of three years, i.e. until 31 December 2001. That scheme will be followed in turn by a third starting on 1 January 2002 and lasting for three years until the end of the ten-year period on 31 December 2004.

The scheme now submitted to Council consists largely of an update of the previous scheme and contains the following features and innovations:

1. Simplified presentation

To make it easier for beneficiaries to use, all the legislation has been brought together so that the industrial and agricultural components and the various other arrangements (general, social and environmental incentives, drugs and LLDC) now come under a single regulation.

2. Updated graduation mechanism

Whenever the scheme has been renewed, the annexes, which represent the results of the graduation mechanism, have generally been adjusted at the same time in line with the most recent available statistics. The most recent definitive statistical data for the purposes of graduation are the World Bank statistics for 1996 and if these were applied in accordance with the scheme, it would lead to the graduation of new sectors for some countries. However, since some beneficiary countries, mainly in Asia, experienced an abrupt change in 1997 in the growth and trade patterns which had hitherto prevailed, the Commission has decided that it would be better not to propose the updating of the annexes in the short term but to retain the possibility of revising them next year depending on the pattern of growth and trade with our Asian and Latin American partners.

3. Renewal of the special drugs arrangements with the Andean and Central American countries

Reports¹ evaluating anti-drugs measures taken by beneficiary countries and analysing the economic and social impact of the special arrangements confirm the need for the special drugs programme - it is a useful means of supporting the efforts of those countries to reduce their dependence on the drug economy and stabilise their economic

¹ These reports are submitted to the Generalised Preferences Committee in accordance with the procedure referred to in Article 18(3) of Regulation (EC) No 3281/94.

and social structures and the institutions that uphold the rule of law. However, as yet, the special arrangements have fallen somewhat short of the objectives set out above. The extreme difficulty of the task, persistent shortcomings and the need for further progress justify the EU's desire to continue backing up the anti-drug efforts of the Andean Community and Central American states by means of the GSP special arrangements which, in any event, will be comprehensively reviewed at the end of ten-year period in 2004.

Naturally, if the EU is to continue with this policy the countries concerned will in turn have to step up their own efforts in three areas:

a) The anti-drug measures of the countries benefiting from the special arrangements must be backed up by continued commitment in the areas of precursors and money laundering - a crucial factor for success. It is vital that these countries adopt legal and political measures which will increase their effectiveness in this area and actually implement the international commitments which they have entered into, or should enter into, to that effect. Monitoring the development of the situation in this respect will therefore form an integral part of the details to be submitted to the Generalised Preferences Committee under the annual exercise to assess the impact of the special arrangements laid down by the regulation. An inappropriate policy on precursors and money laundering in the countries concerned may have an adverse effect.

b) Preferential access to our market must be matched by further export diversification and this requires a special effort by the beneficiary countries. For the Community's support to work properly, exports of manufactures must expand. The same is true of the Central American countries to which the Commission proposes to extend the benefit of the special arrangements for the industrial sector. This will require an improvement in the institutional environment of the countries concerned in order to attract new investment, including foreign direct investment, in the industrial sector. The completion of regional integration would represent considerable progress, helping overcome potential investors' reluctance to get involved in small, partitioned markets. This too will be subject to scrutiny by the Generalised Preferences Committee as part of its annual exercise to assess the impact of the special arrangements which may be adversely affected by a lack of progress towards regional integration.

c) Social considerations form an essential part of any attempt to combat drug-trafficking, since the drugs problem is clearly rooted to a large extent in the social conditions of the people concerned. Problems relating to the environment must also form part of any such policy.

To respond to these concerns, the Commission proposes to introduce a social and environmental component into the special drugs arrangements. This will take the form of a clause according to which the countries eligible for the special drugs arrangements will

have their tariff benefits reduced by a percentage equal to the additional preferential margins offered under the special incentive schemes if they fail to comply with the social and environmental standards which apply to countries eligible for such schemes. The preferences allowed under the drugs arrangements will therefore be made up of a drugs component *per se* and a component linked to compliance with social and environmental standards.

However, the countries benefiting from the drugs arrangements will only be subject *ex-post* to the procedure provided for under the incentive arrangements for verifying compliance with social and environmental legislation in order to assess their eligibility for the social and environmental component of the benefit they receive. The verification procedure will not therefore be a precondition for eligibility. This approach allows the drugs arrangements to maintain their appeal and effectiveness by incorporating a social and environmental incentive into them thereby making the whole scheme more coherent.

4. Extending product coverage under the environmental clause

To make use of the environmental clause more attractive (hitherto it has been limited to tropical forest timber products) the Commission has decided to extend the list of eligible products by adding various non-wood products of tropical forests managed in accordance with International Tropical Timber Organisation standards.

5. Special arrangements for the LLDC

The Commission underlines its pledge to embark upon a process which will lead, by the year 2005, to duty-free access for practically all products originating in the LLDC on the basis of the trade provisions of the current Lomé Convention and to simplify the origin rules and provisions on cumulation which apply to their exports. This process entails abandoning the principle of non-discrimination between ACP States.

The basic industrial products which are now to form part of the LLDC offer are naturally excluded from the general arrangements applicable to non-LLDC beneficiary countries. In the interests of clarity for traders, the information provided to them will in future include a list of the basic industrial products excluded from the general arrangements.

The above are the main features and innovations of the 2nd GSP scheme of the ten-year period which the Commission now submits to the Council for its opinion with a view to adoption in time to enter into force on 1 January 1999.

Proposal for a
Council Regulation (EC) No /98
applying a multiannual scheme of generalised tariff preferences
for the period 1 January 1999 to 31 December 2001

(presented by the Commission)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,¹

- Having regard to the opinion of the European Parliament,²

Having regard to the opinion of the Economic and Social Committee,³

Whereas, in accordance with its offer made within the context of the United Nations Conference on Trade and Development (UNCTAD), the European Community opened generalised tariff preferences commencing in 1971 in respect of certain agricultural and industrial products from developing countries; whereas the initial ten-year period of application of the system of preferences ended on 31 December 1980 and a second ten-

³ OJ C , 1998, p.

year period ended on 31 December 1990, though the scheme was kept in being unchanged until 31 December 1994 when the Community made a new ten-year offer (1995-2004);

Whereas the positive role played by this system in the past in improving access for the developing countries to the markets of preference-giving countries is accepted and justifies its continued existence for a time, in step with other priority measures, including the multilateral liberalisation of trade;

Whereas in a communication to the Council dated 1 June 1994⁴ the Commission set out its recommendations for a further ten-year period of application of its scheme of generalised preferences for the period 1995-2004;

Whereas these guidelines were confirmed in 1995 by the adoption of the first scheme for the ten-year period, governed by Council Regulation (EC) No 3281/94 of 19 December 1994 applying a four-year scheme of generalised tariff preferences (1995-1998) in respect of certain industrial products originating in developing countries⁵ and Council Regulation (EC) No 1256/96 of 20 June 1996 applying a multiannual scheme of generalised tariff preferences from 1 July 1996 to 30 June 1999 in respect of certain agricultural products originating in developing countries;⁶

Whereas the Treaty on European Union has lent a fresh impetus to Community development policy as an aspect of the Union's foreign policy, with priority given to the sustainable economic and social development of the developing countries and their smooth and gradual integration into the world economy;

Whereas the Community scheme of generalised preferences should therefore continue in its development-oriented approach, focusing on the countries which have most need of it, i.e. the poorest countries; whereas the scheme should be complementary to WTO instruments and should foster the integration of developing countries into the world economy and the multilateral trading system; whereas the giving of preferences should accordingly be seen as a transitional measure, to be used as needed and phased out when the need is considered no longer to exist;

⁵ OJ L 348, 31.12.1994, p. 1.

⁶ OJ L 160, 29.6.1996, p. 1.

Whereas the Community scheme of generalised tariff preferences must continue to aim at a level of liberalisation at which the impact of the preferential margin on the potential volume of preferential trade is neutral overall compared with the previous schemes, without prejudice to special incentive arrangements;

Whereas the Community scheme of generalised tariff preferences must also take account of certain sectors or products which are sensitive for Community industry and agriculture; whereas sensitive sectors should continue to be protected against import surges by means of a dual mechanism involving a modulation of preferential tariff margins coupled with an emergency safeguard clause;

Whereas in order to improve access to the Community market and increase the actual take-up of preferences by moderately-developed or less-developed countries, the system of graduation should continue in being;

Whereas sector/country graduation combines a development criterion, expressed as a development index reflecting a country's per capita income and the level of its manufactured exports as compared with those of the Community, with a measurement of relative specialisation expressed as a specialisation index based on the ratio of the beneficiary country's share of total Community imports in general to its share of total Community imports in a given sector; whereas combined application of these two criteria should make it possible to adjust the crude results of the specialisation index, in terms of the sectors to be excluded, in line with the level of development;

Whereas the Community may review the results of the graduation mechanism before the end of 1999 in the light of changes in the world trade and investment climate;

Whereas the sector/country graduation system should also continue to apply to beneficiary countries whose exports of products covered by the GSP in a given sector exceeded 25% of all beneficiaries' exports of those products in that sector in the statistical reference year of the previous scheme, irrespective of their level of development;

Whereas countries whose exports to the Community of products covered by the GSP in a given sector did not exceed 2% of all beneficiary countries' exports to the Community in that sector in the statistical reference year of the previous scheme should remain exempt from the graduation system;

Whereas countries and territories whose per capita income is higher than that of a Member State of the Community and whose development index is higher than -1° should continue to be excluded from the scheme;

Whereas at the Singapore ministerial conference in December 1996 the WTO member countries pledged to carry out an action plan to improve access to their markets for products originating in the least-developed countries;

Whereas, on the basis of a Commission communication of 16 April 1997 and the Council conclusions of 2 June 1997, Council Regulation (EC) No 602/98 of 9 March 1998⁷ granted least-developed countries not party to the Lomé Convention preferences equivalent to those enjoyed by signatories;

Whereas countries undertaking effective programmes to combat drug production and trafficking should remain entitled to the more favourable treatment granted them under the previous scheme; whereas the countries concerned will therefore continue to enjoy duty-free access for industrial and agricultural products provided they continue their efforts to combat drugs; whereas the above treatment should be extended to industrial products from the Central American Common Market countries and Panama;

Whereas the continuation of this special treatment after 31 December 1999 should, however, be conditional upon compliance with the social and environmental standards governing eligibility for the labour right and environmental protection incentives; whereas in the event of failure to comply with these standards and related procedures, the margin of the special drugs preference should be reduced by an amount proportional to the advantage offered under the incentive arrangements;

Whereas beneficiary countries willing to do so but as yet unable to meet the costs may be encouraged to introduce effective policies for the protection of workers' rights, with particular regard to the right to organise and the prohibition of child labour; whereas more favourable treatment should therefore also be available for products manufactured in conditions conforming to standards laid down by the International Labour Organisation (ILO) in countries whose legislation contains rules of similar scope and substance which are actually applied;

Whereas beneficiary countries may also be encouraged to undertake effective environmental protection policies by means of incentives for products and production methods internationally approved as consistent with the objectives set out in international conventions on the environment and in Agenda 21; whereas to that end more favourable treatment may initially be made available for tropical wood products from forests which

⁷ OJ L 80, 18.3.1998, p. 1.

are sustainably managed in conformity with International Tropical Timber Organisation (ITTO) standards;

Whereas Council Regulation (EC) No 1154/98 of 25 May 1998⁸ implemented the special incentive arrangements concerning labour rights and environmental protection provided for in Articles 7 and 8 of Regulations (EC) Nos 3281/94 and 1256/96;

Whereas the special incentive arrangements should be available to countries which are beneficiaries of the general scheme, even in sectors where they may be subject to the graduation mechanism but not in those subject to the clause in Article 5(1) of Regulations (EC) Nos 3281/94 and 1256/96, as these are excluded for reasons of competitive capacity irrespective of the level of development of the country concerned;

Whereas the incentives for labour rights may be granted only to countries which request them in writing and provide proof that they apply legislation incorporating the substance of the standards laid down in ILO Conventions Nos 87 and 98 concerning the application of the principles of the right to organise and to bargain collectively and ILO Convention No 138 concerning the minimum age for admission to employment;

Whereas the incentives for labour rights should be confined to countries, or in certain cases, to production sectors that have actually taken steps to comply with the ILO Conventions in question; whereas provision must therefore be made for the incentives to apply to certain sectors but not to others;

Whereas the incentives for environmental protection may be granted only to countries that request them and provide proof that they apply legislation incorporating the substance of the standards of the International Tropical Timber Organisation;

Whereas requests for application of the social and environmental incentives must be subject to a publication procedure enabling interested parties to make their views known; whereas the decision on whether to grant this treatment must be taken after the Commission has examined the requests closely and the Generalised Preferences Committee has delivered a favourable opinion;

Whereas operation of the incentive arrangements for labour rights is contingent on certification by the authorities of the beneficiary countries of product conformity with the

⁸ OJ L 160, 4.6.1998, p. 1.

abovementioned standards and on the application of administrative cooperation procedures similar to those used to verify the origin of goods;

Whereas for the purposes of certification and administrative cooperation procedures, the relevant provisions of Commission Regulation (EEC) No 2454/93⁹ of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code should be applied;¹⁰ whereas, however, special procedures should be provided in order to safeguard the legitimate interests of importers using the special incentive arrangements;

Whereas if the incentives are to be fully effective the additional preferential margin must be attractive; whereas the margins specified in Council Regulation (EC) No 1154/98 should accordingly continue to apply;

Whereas the international criteria for the preservation of tropical forests cannot for the time being be used to monitor logging operations; whereas at this stage it is preferable for the purposes of the environmental incentives to vet countries thoroughly in advance, without prejudice to subsequent use of ex-post verification as soon as conditions permit; whereas the additional preferential margins available should be the same as those adopted in the social field;

Whereas, however, owing to the great sensitivity of the products referred to in Part 1 of Annex I to this Regulation, the further reduction in duty which may be applied to these products under the special incentive arrangements should be limited to 40%;

Whereas in certain circumstances it may be appropriate to withdraw temporarily all or part of a country's entitlement under the special incentive arrangements for instance where beneficiary states fail to honour their commitments;

Whereas in certain circumstances it may be appropriate to withdraw temporarily some or all of a country's preferential entitlement; whereas such circumstances include any form of forced labour, exports of goods made by prison labour, inadequate controls on the export or transit of drugs or on money laundering, legislation discriminating against the Community, failure to apply the administrative cooperation methods necessary for the

⁹ OJ L 253, 11.10.1993, p. 1.

¹⁰ OJ L 302, 19.10.1992, p. 1.

scheme to function properly, failure to comply with obligations entered into in the Uruguay Round to meet agreed market-access objectives, or failure to comply with certain international conventions concerning the conservation and management of fishery resources;

Whereas temporary withdrawal of entitlement must be the culmination of a procedure which gives all interested parties an opportunity to state their views;

Whereas the Community must be able to act swiftly against third countries when its financial interests are damaged as a result of fraud, serious and repeated irregularities or a manifest lack of administrative cooperation in such countries; whereas having notified the Member States and the operators concerned of its reasonable doubts, the Commission should be able to suspend certain preferences provisionally on the basis of sufficient evidence;

Whereas at the end of that procedure the decision on temporary withdrawal as defined above should be taken in the context of overall relations with the beneficiary country concerned; whereas the Community interest may in some cases be better served by having the Council discuss that context, which is likely to include aspects unrelated to trade; whereas the power to decide on the withdrawal of some or all of a country's preferential entitlement should therefore lie with the Council;

Whereas the temporary withdrawal of all tariff preferences in respect of industrial and agricultural products originating in Myanmar should remain in force in accordance with the conditions laid down in Council Regulation (EC) No 552/97 of 24 March 1997,¹¹ on account of the use of forced labour there;

Whereas it would be illogical to accord preferences in respect of products subject to antidumping or anti-subsidy measures unless such measures reflected the impact of the preferential arrangements;

Whereas the preferential rates of duty to be applied under this Regulation should normally be calculated on the basis of the conventional rate of duty in the Common Customs Tariff for the products concerned; whereas they should, however, be calculated from the autonomous rate of duty where no conventional rate is given for the products concerned or where the autonomous rate is lower than the conventional rate;

Whereas the same methods of calculation should apply to *ad valorem* rates of duty as well as to the treatment of minimum and maximum duties provided in the Common Customs Tariff; whereas this reduction of duties does not affect the collection of charges

¹¹ OJ L 85, 27.3.1997, p. 8.

laid down under the common agricultural policy such as agricultural specific duties added to *ad valorem* duties or import charges which are not customs duties within the meaning of Article 20(3)(c) of Council Regulation (EEC) No 2913/92; whereas the calculation must in no case be based on duties applied under conventional or autonomous tariff quotas;

Whereas the current scheme for agricultural products as set out in Council Regulation (EC) No 1256/96 should be applied until its due expiry date, i.e. 30 June 1999,

HAS ADOPTED THIS REGULATION:

Article 1

1. The Community scheme of generalised tariff preferences, comprising general arrangements and special incentive arrangements, is hereby renewed for the period from 1 January 1999 to 31 December 2001, to apply in accordance with the conditions and arrangements laid down in this Regulation.

2. This Regulation shall apply to products falling within Chapters 1 to 97 of the Common Customs Tariff, excluding Chapter 93, which are listed in Annex I and, on the conditions laid down in Articles 6 and 7, to the products listed in Annex VII.

3. Access to the arrangements referred to in paragraph 1 shall be restricted to the countries and territories listed in Annex III.

4. Entitlement to the preferences granted by this Regulation shall remain temporarily withdrawn in respect of products originating in Myanmar on the conditions laid down in Council Regulation (EC) No 552/97.

These criteria shall apply cumulatively.

6. In order to be admitted under one of the preferential arrangements established by this Regulation, products must comply with a definition of origin adopted in accordance with

the procedure laid down in Article 249 of Council Regulation (EEC) No 2913/92.

7. The removal of a country or territory from the list of countries and territories entitled to generalised preferences by virtue of paragraph 5 shall not affect the possibility of using products originating in that country under the regional cumulation mechanism applicable to all regional groupings referred to in Article 72(3) of Commission Regulation (EEC) No 2454/93, provided that the country has been a member of the regional grouping since the multiannual system of preferences applicable to the product concerned in 1995 entered into force and is not considered to be the country of origin of the final product within the meaning of Article 72(a) of that Regulation.

Article 10

1. The preferential duty applying to agricultural products of Chapters 1 to 24 of the Common Customs Tariff listed in Annex I which comply with the conditions of this Title shall be reduced by an amount equal to:

- 10% of the Common Customs Tariff duty applicable to the products in Part 1;
- 20% of the Common Customs Tariff duty applicable to the products in Part 2;

1. The continuation after 31 December 1999 of the special treatment provided for in Article 7 for the benefit of the countries listed in Annex V shall be conditional upon their compliance with the procedures laid down in sections 2, 3, 4 and 5 of this Title governing the granting and monitoring of the special incentive arrangements.

2. Each country listed in Annex V shall notify the Commission in writing of its intention to submit by 30 June 1999 a request for application of the special arrangements as provided for in Articles 12 and 17 of this Regulation. Such notification shall be sent to the Commission by 31 March 1999 at the latest. The decision shall be taken in accordance with the procedure provided for in Article 33.

Section 2

Procedure for granting the special incentive arrangements concerning labour rights

Article 12

1. Without prejudice to the following Articles, the reductions specified in Article 10 shall apply to products originating in the beneficiary countries listed in Annex III on condition that the authorities of those countries have applied to the Commission in writing to take advantage of the special arrangements for their originating products, giving details of:

- their domestic legislation incorporating the substance of the standards laid down in ILO Conventions Nos 87 and 98 concerning application of the principles of the right to organise and to bargain collectively and Convention No 138 concerning the minimum age of admission to employment; the full text of such legislation must be attached, together with an official translation into one of the Community languages;
- the measures taken to apply and monitor these provisions effectively, any sectoral restrictions on their application, any breaches observed and a breakdown of such breaches by production sector;
- a commitment by the government of the country in question to take full responsibility for monitoring application of the special arrangements and the relevant administrative cooperation procedures.

2. The Commission shall publish a notice in the Official Journal of the European Communities, announcing that such a request has been made by a beneficiary country and stating that any relevant information concerning the request may be sent to the Commission by any interested natural or legal person; it shall specify the period within which interested parties may make known their views.

Article 13

1. The Commission shall examine the requests submitted by the beneficiary countries and, depending on the content, may put any further questions which it considers relevant.

2. The Commission shall seek whatever information it considers necessary and may check this information where appropriate with the persons referred to in Article 12(2) or any other natural or legal person.

3. The Commission may carry out checks in requesting beneficiary countries, and in cooperation with them, to verify all or part of the information gathered. The Commission

shall invite the authorities of such beneficiary countries to cooperate in these investigations. The Commission may be assisted in this task by the Member States.

4. The Commission shall complete the examination of a request within a year of the date of receipt. It may extend this deadline if necessary, informing the Committee referred to in Article 32.

5. The Commission shall submit the findings of its examination to the Committee referred to in Article 32.

Article 14

1. The Commission shall decide, in accordance with the procedure laid down in Article 33, either to grant the special incentive arrangements to products originating in the requesting country on condition that the monitoring and administrative cooperation arrangements defined in the following Articles of this Title are observed or, if it considers that the requesting country's legislative, implementing and monitoring provisions do not ensure effective application of ILO Conventions Nos 87, 98 and 138, not to grant them.

2. Where the special arrangements cannot be applied in accordance with the procedure laid down in paragraph 1, the Commission may decide in accordance with the procedure laid down in Article 33 that the special arrangements be granted to some sectors if, after the examination provided for in Article 13, it considers that ILO Conventions Nos 87, 98 and 138 are effectively applied only in those sectors.

3. Applicant countries shall be notified by the Commission of decisions taken pursuant to paragraphs 1 and 2 and of the date on which they enter into force.

4. In particular, if the Commission decides not to grant the special incentive arrangements to a country or to exclude some sectors, it shall explain the reasons for its decision to the applicant country if that country so requests. Such dialogue shall be conducted in close coordination with the committee referred to in Article 32.

Section 3

Monitoring procedure and administrative cooperation methods for the special incentive arrangements concerning labour rights

Article 15

1. Products referred to in Article 10 originating in countries which have been notified of a decision granting them entitlement to the special incentive arrangements shall be admitted under the arrangements provided for in Article 10 from the date of entry into force of that decision on presentation of a statement by the beneficiary country's

competent authorities, duly identified during appraisal of the request, certifying that the products in question and their components have been manufactured in that country, or in a country entitled to regional cumulation within the meaning of Article 72 of Regulation (EEC) No 2454/93, under conditions complying with the domestic legislation referred to in the first indent of Article 12(1) and are therefore eligible for the special incentive arrangements.

2. The statement referred to in paragraph 1 shall take the following form, as appropriate:

'ILO Conventions Nos 87, 98, 138 – Title II of Regulation (EC) No /98'

and shall be entered in box 4 of the certificate of origin form A or on the invoice declaration provided for in Article 90 of Regulation (EEC) No 2454/93. This statement shall be validated by a stamp of the beneficiary country authority referred to in paragraph 1, in accordance with the provisions of Article 93 of Regulation (EEC) No 2454/93.

3. In the case of the products referred to in Article 3, the certificate of origin form A or the invoice declaration shall be valid solely in respect of the special incentive arrangements and not for any other preferential treatment.

Article 16

1. The provisions of Article 81(3) to (6), Article 84 and Articles 93 to 95 of Regulation (EEC) No 2454/93 shall apply *mutatis mutandis* to the statements referred to in Article 15.

2. The issuing authorities for the statements referred to in Article 15 may be different from those for certificates of origin form A.

3. Having regard to Article 94(5) of Regulation (EEC) No 2454/93, the Commission, in cooperation with the Committee referred to in Article 32, shall draw up a non-exhaustive list of criteria specifying cases of reasonable doubt which may arise for these incentives, at the latest by the time a request for special preferences is granted. The Commission shall publish this list in the Official Journal of the European Communities.

4. (a) The customs authorities in the Community shall inform the Commission, which shall immediately publish a notification in the Official Journal of the European Communities:

- that reasonable doubt exists about the entitlement to the special incentives, making clear the products, producers and exporters to which it applies, when a second communication is sent under Article 94(5) of Commission Regulation (EEC) No 2454/93 which relates to the benefits granted in this Regulation, or

- that a particular product from particular producers and exporters is not entitled to the special incentives, when it has been so established using the procedure in Article 94 of Regulation (EEC) No 2454/93.

(b) The part of any customs debt which corresponds to the benefits granted under this Title shall be considered not to be incurred unless it is incurred after the date of publication of the notification referred to in subparagraph (a) and the debt concerns a product, producer and exporter specially mentioned therein, or unless the conditions justifying the application of the second sentence of Article 221(3) of Council Regulation (EEC) No 2913/92 exist.

Section 4
Procedure for granting the special incentive arrangements
concerning environmental protection

Article 17

1. Without prejudice to the following Articles, the reductions specified in Article 10 shall apply to products originating in the beneficiary countries listed in Annex III on condition that the authorities of those countries have applied to the Commission in writing to take advantage of the special incentive scheme for their originating products, giving details of:

- their domestic legislation incorporating the substance of the ITTO standards; the full text of such legislation must be attached, together with an authentic translation into one of the Community languages;
- the measures taken to implement that legislation;
- their commitment to maintain that legislation and the implementing measures.

2. The Commission shall publish a notice in the Official Journal of the European Communities announcing that such a request has been made by a beneficiary country and stating that any relevant information concerning the request may be sent to the Commission by any interested natural or legal person; it shall specify the period within which interested parties may make known their views.

Article 18

1. The Commission shall examine the requests submitted by the beneficiary countries and, depending on the content, may put any further questions which it considers relevant.

2. The Commission shall seek whatever information it considers necessary and may check this information where appropriate with the persons referred to in Article 17(2) or any other natural or legal person.

3. The Commission may carry out checks in requesting beneficiary countries, and in cooperation with them, to verify all or part of the information gathered. The Commission shall invite the authorities of such beneficiary countries to cooperate in these investigations. The Commission may be assisted in this task by the Member States.

4. The Commission shall complete the examination of a request within a year of the date of receipt. It may extend this deadline if necessary, informing the Committee referred to in Article 32.

5. The Commission shall submit the findings of its examination to the Committee referred to in Article 32.

Article 19

1. The Commission shall decide in accordance with the procedure laid down in Article 33 of this Regulation:

- either to grant the special incentive arrangements to products originating in the requesting country,
- or, if it considers that the requesting country's legislation is not sufficient to ensure effective application of the substance of the ITTO standards, not to grant the special incentive arrangements to that country.

2. Requesting countries shall be notified by the Commission of decisions taken pursuant to paragraph 1 and of the date on which they enter into force.

3. In particular, if the Commission decides not to grant the special incentive arrangements to a country, it shall explain the reasons for its decision to the applicant country. Such dialogue shall be conducted in close coordination with the Committee referred to in Article 32.

Section 5

Monitoring procedure and administrative cooperation methods for the special incentive arrangements concerning environmental protection

Article 20

1. Certificates of origin form A issued for products referred to in Article 10 and the invoice declarations provided for in Article 90 of Regulation (EEC) No 2454/93 shall bear the following endorsement, as appropriate:

'Environmental clause – Title II of Regulation (EC) No /98'

2. In the case of the products referred to in Article 3, the certificate of origin form A or the invoice declaration shall be valid solely in respect of the special incentive arrangements and not for any other preferential treatment.

Section 6

Other provisions common to the special incentive arrangements

Article 21

1. Without prejudice to the second subparagraph of Article 94(2) of Commission Regulation (EEC) No 2454/93, all or part of a country's entitlement to the special incentive arrangements may be temporarily withdrawn if there is sufficient evidence that that country has not fulfilled its obligations within the meaning of Articles 12 and 17. Such total or partial withdrawal shall be without prejudice to the possible application of Article 23.

2. The withdrawal decision referred to in paragraph 1 shall be adopted in accordance with the procedure laid down in Article 33.

Article 22

For the highly sensitive products referred to in Part 1 of Annex I to this Regulation, the reduction in duty resulting from the application of Article 10 may not exceed 40%.

TITLE III

Reintroduction of Common Customs Tariff duties and related procedures

Section 1

Temporary withdrawal clause

Article 23

1. The arrangements provided for by this Regulation may at any time be temporarily withdrawn in whole or in part, in the following circumstances:

- (a) practice of any form of slavery or forced labour as defined in the Geneva Conventions of 25 September 1926 and 7 September 1956 and International Labour Organisation Conventions Nos 29 and 105,
- (b) export of goods made by prison labour,
- (c) manifest shortcomings in customs controls on export or transit of drugs (illicit substances or precursors), or failure to comply with international conventions on money laundering,

- (d) fraud or failure to provide administrative cooperation as required for the verification of certificates of origin Form A,
 - (e) manifest cases of unfair trading practices on the part of a beneficiary country, including discrimination against the Community and alleged failure to comply with obligations under the Uruguay Round to meet agreed market-access objectives, without prejudice to the facts as established by the competent WTO bodies,
 - (f) manifest cases of infringement of the objectives of international conventions such as NAFO, NEAFC, ICCAT and NASCO concerning the conservation and management of fishery resources.
2. Temporary withdrawal shall not be automatic, but shall follow the procedural requirements laid down in the following Articles, including Article 27(3).

Article 24

1. The circumstances referred to in Article 23 which might make it necessary to resort to temporary withdrawal of preferences may either be identified by the Commission itself, or be brought to the Commission's attention by the Member States, or by any natural or legal person or association not endowed with legal personality which can show an interest in such withdrawal. The Commission shall communicate the information immediately to all Member States.
2. Consultations may be initiated either at the request of a Member State or at the Commission's request. They shall take place within [eight] working days of receipt by the Commission of the information referred to in paragraph 1 and in any event before adoption of any Community measures withdrawing preferences.
3. The consultations shall take place in the Committee referred to in Article 32, which shall be convened by its chairman, who shall communicate all pertinent information to the Member States as soon as possible.
4. The consultations shall be concerned *inter alia* with analysis of the circumstances referred to in Article 23 and the measures to be taken.

Article 25

1. Where the Commission finds that there is sufficient evidence to establish that a beneficiary country meets the conditions laid down in Article 23(1)(d), it may take action against that country to suspend in whole or in part the arrangements provided for in this Regulation for a period of three months, renewable once only, provided that it has first:

- notified the Committee referred to in Article 32 of its intentions;
- called on the Member States to take such precautionary measures as are necessary in order to safeguard the Community's financial interests;
- published a notice in the Official Journal of the European Communities stating that there are grounds for reasonable doubts about the application of the preferential arrangements by the beneficiary country concerned which may call into question its right to continue enjoying the benefits granted by this Regulation.

2. On conclusion of the period of suspension, the Commission shall decide either to:

- terminate the provisional suspension measure following consultation of the Committee referred to in Article 32;

or

- initiate the consultations referred to in Article 24(2) with a view to temporary withdrawal of the preferences provided for in Article 23(2). Pending the outcome of such consultations and of any investigation initiated pursuant to Article 26, the Commission may decide to extend the suspension measure in accordance with the procedure provided for in Article 33.

Article 26

1. Where the Commission finds, following the consultations referred to in Article 24, that there is sufficient evidence to justify initiation of an investigation, it shall:

- (a) announce the initiation of an investigation in the Official Journal of the European Communities and notify the country concerned thereof; such announcement shall give a summary of the information received and state that all relevant information is to be communicated to the Commission, specifying the period within which interested parties may make known their views in writing;
- (b) commence the investigation, lasting up to one year, in cooperation with the Member States and in consultation with the Committee referred to in Article 32. The duration of the investigation may be extended if need be under the same procedure.

2. The Commission shall seek all information it deems to be necessary and shall, where it considers this appropriate, after consulting the Committee referred to in Article 32, verify

the information with economic operators and the competent authorities of the beneficiary country concerned. For this purpose the Commission may dispatch its own experts to establish on the spot the truth of the allegations made by the persons referred to in Article 24(1). The Commission shall provide the competent authorities of the beneficiary country concerned with every opportunity to cooperate as necessary in the conduct of these enquiries.

3. The Commission may also be assisted by officials of the Member State on whose territory verification might be sought, if the said Member State so requests.

4. The Commission may hear the interested parties. It shall so hear them if they have, within the period prescribed in the notice published in the Official Journal of the European Communities, made a written request for a hearing showing that they are likely to be affected by the result of the investigation and that there are particular reasons why they should be heard orally.

5. Where information requested by the Commission is not provided within a reasonable period or the investigation is significantly impeded, findings may be made on the basis of the facts available.

Article 27

1. When the investigation is complete, the Commission shall report the findings to the Committee referred to in Article 32.

2. If the Commission considers temporary withdrawal of preference to be unnecessary, it shall, after consulting the Committee referred to in Article 32, publish a notice in the Official Journal of the European Communities, announcing the termination of the investigation and setting out its main conclusions.

3. If the Commission considers temporary withdrawal of preference to be necessary, it shall submit an appropriate proposal to the Council, which shall decide on it by a qualified majority.

Section 2 Antidumping clause

Article 28

Preferences shall normally be granted to products which are subject to antidumping or anti-subsidy measures under Council Regulation (EEC) No 2423/88 of 11 July 1988,¹² as amended, unless it can be shown that those measures were based on injury caused and on prices which did not reflect the preferential tariff arrangements granted to the country concerned. To that end, the Commission shall publish in the Official Journal of the European Communities a list of products and countries to which preference is not granted.

¹² OJ L 209, 2.8.1988, p. 1.

Section 3 **Safeguard clause**

Article 29

1. Where a product originating in one of the countries or territories listed in Annex III is imported on terms which cause or threaten to cause serious difficulties to a Community producer of like or directly competing products, Common Customs Tariff duties on that product may be reintroduced at any time at the request of a Member State or on the Commission's own initiative.

2. The Commission shall announce the opening of an investigation in the Official Journal of the European Communities. The announcement shall provide a summary of the information received and state that any useful information should be communicated to the Commission; it shall specify the period within which interested parties may make their views known in writing.

3. In examining the possible existence of serious difficulties the Commission shall take account, *inter alia*, of the factors listed in Annex VI where the information is available.

4. The Commission shall take the decision within 30 working days of consulting the Committee referred to in Article 32. A Member State may refer the Commission's decision to the Council within 10 days. The Council, acting by a qualified majority, shall have 30 days within which to adopt a different decision.

5. The beneficiary countries concerned shall be informed of such measures before the said measures become effective.

6. Where exceptional circumstances requiring immediate action make either notification or examination impossible, the Commission may, after so informing the Member States, implement any preventive measure which is strictly necessary and which satisfies the conditions laid down in paragraph 1 to deal with the situation.

7. Nothing in this Article shall affect the application of safeguard clauses adopted as part of the common agricultural policy under Article 43 of the Treaty, or as part of the common commercial policy under Article 113 of the Treaty, or any other safeguard clauses which may be applied.

TITRE IV
Common provisions

Article 30

1. Subject to paragraph 2, rates of preferential duty calculated in accordance with this Regulation shall be rounded down to the first decimal place.

2. Where the result of calculating the rate of preferential duty in application of paragraph 1 is one of the following, the preferential rate shall be considered a full exemption:

- 0.5% or less in the case of *ad valorem* duties, or
- 1 euro or less per unit in the case of specific duties.

3. Changes to Annexes I, II, VII and VIII made necessary by amendments to the Combined Nomenclature shall be adopted in accordance with the procedure laid down in Article 33.

Article 31

1. Within six weeks of the end of each quarter the Member States shall send the Statistical Office of the European Communities their statistical data on goods admitted for free circulation during that quarter under the tariff preferences provided for in this Regulation. The said data, supplied by reference to Combined Nomenclature codes and, where applicable, Taric codes, shall show, by country of origin, values, quantities and any supplementary units required in accordance with the definitions in Council Regulations (EEC) No 1736/75 of 24 June 1975¹³ and 3367/87 of 9 November 1987.¹⁴

2. The Member States shall forward to the Commission, at its request, and by the 11th day of each month at the latest, details of the quantities of products admitted under these arrangements during the previous months. The Member States and the Commission shall cooperate closely to ensure that this provision is complied with.

¹³ OJ L 183, 14.7.1975, p. 3.

¹⁴ OJ L 321, 11.11.1987, p. 3.

Article 32

1. The Generalised Preferences Committee created by Article 17 of Council Regulation (EC) No 3281/94, hereinafter referred to as "the Committee", may examine any matter relating to the application of this Regulation which is raised by its chairman either on his own initiative or at the request of a Member State's representative.

2. On the basis of an annual report from the Commission, it shall examine the extent to which the principle of neutrality of the effects of this scheme has been observed and any steps being considered by the Commission, either in accordance with the procedure laid down in Article 33 or through a proposal submitted to the Council, to ensure proper observance thereof.

3. On the basis of an annual report from the Commission, it shall also examine the effects of the special arrangements with regard to drugs, including the progress made by the countries listed in Annex V in the fight against drugs and, if progress is insufficient, any measures which the Commission is considering taking, in accordance with the procedure laid down in Article 7 and after consulting the country concerned, to suspend in whole or in part the application of Article 33.

4. On the basis of an annual report from the Commission, it shall also examine the effects of the special incentive arrangements, including the progress made by the beneficiary countries and the measures being considered to remedy reported shortcomings. Those measures shall be adopted in accordance with the procedures laid down in Article 33.

Article 33

1. The Commission representative shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on the draft within a time limit which the chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148(2) of the Treaty for the adoption of decisions that the Council is called on to take on a proposal from the Commission. During votes within the Committee, the votes of the representatives of the Member States shall be weighted as set out in the Article referred to above. The chairman shall not vote.

2. (a) The Commission shall adopt the measures envisaged if they are in accordance with the opinion of the Committee.

b) If the measures envisaged are not in accordance with the opinion of the Committee, or if no opinion is delivered, the Commission shall without delay submit to the Council a proposal relating to the measures to be taken. The Council shall act by a qualified majority.

c) If, within three months of referral to the Council, the Council has not acted, the proposed measures shall be adopted by the Commission.

TITLE V

Final provisions

Article 34

1. The Commission shall adopt the necessary budget implementation measures to ensure appropriate technical assistance to beneficiary countries, in particular the least developed countries, to help them take advantage of the arrangements and improve their access to international trade in general, including through the use of computerised means.
2. The Commission shall also adopt the necessary budget implementation measures for the application of all provisions under Titles II and III of this Regulation.

Article 35

Council Regulation (EC) No 1256/96 is hereby repealed with the exception of Article 4(3) which shall continue to apply until 30 June 1999.

Article 36

1. This Regulation shall enter into force on 1 January 1999.
2. It shall apply from 1 January 1999 to 31 December 2001.
3. The period of validity of Article 17 of Council Regulation No 3281/94 is hereby extended until 31 December 2001.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Financial statement

Title of operation

Draft proposal for a regulation applying a multiannual scheme of generalised tariff preferences (1999-2001) in respect of certain agricultural and industrial products originating in developing countries

Legal basis

Article 113 of the Treaty.

Objective of the operation

The aim of this draft proposal for a regulation is to implement the second scheme of the ten-year period 1995-2004.

Estimate of customs revenue

The draft will not result in any substantial change as it simply renews the existing scheme.

However, the extension of the special anti-drugs arrangements in the industrial sector (Article 7) to the Central American Common Market and Panama is likely to result in a slightly larger loss of revenue estimated at ECU 1 443 899.

Widening the coverage of products in Annex VIII (environmental products referred to in Article 9) is also likely to produce a loss of revenue of ECU 40 866.

PART 2

Identification of countries and sectors referred to in Article 3

I. *Classification of beneficiary countries by development index*

The development index represents each country's overall level of industrial development compared with that of the European Union. It is based on the following formula, which combines per capita income with the level of manufactured exports:

$$\frac{\{\log[Y_i/POP_i]/(Y_{ue}/POP_{ue})\} + \log[X_i/X_{ue}]}{2}$$

2

in which:

Y_i = the beneficiary country's income,
 Y_{ue} = the European Union's income,
 POP_i = the beneficiary country's population,
 POP_{ue} = the population of the European Union,
 X_i = the value of the beneficiary country's manufactured exports.
 X_{ue} = the value of the European Union's manufactured exports.

Using this formula, an index of 0 means the beneficiary's level of industrial development is equal to that of the European Union.

Figures for income and population are taken from World Bank statistics (World Development Report 1993) and those for manufactured exports from the UNCTAD Handbook of International Trade and Development Statistics (1992).

II. *Classification of beneficiary countries by relative sectoral specialisation index*

A beneficiary country's specialisation index is the ratio of that country's share of total Community imports in general to its share of total Community imports in a given sector.

III. Combining the development and specialisation indexes

The combination of these two indexes determines how Article 3 will be applied to each beneficiary country.

For countries with a development index greater than -1, Article 3 will apply when the specialisation index equals or exceeds 1.

For countries with a development index between -1 and -1.23, Article 3 will apply when the specialisation index equals or exceeds 1.5.

For countries with a development index between -1.23 and -1.70, Article 3 will apply when the specialisation index equals or exceeds 5.

For countries with a development index between -1.70 and -2, Article 3 will apply when the specialisation index equals or exceeds 7.

Article 3 will not apply to countries with a development index of less than -2.
