

**Proposal for a Council Regulation concerning 'the implementation of projects promoting cooperation and commercial relations between the EU and the industrialised countries of North America, the Far East and Australasia'**

(2000/C 337 E/23)

COM(2000) 381 final — 2000/0165(CNS)

*(Submitted by the Commission on 23 June 2000)*

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 133 and Article 308 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament,

Whereas:

- (1) The promotion of cooperation and commercial relations with the industrialised countries should be pursued where it is in the mutual interest of the Community and the partner country concerned.
- (2) The European Parliament has adopted various resolutions on relations between the EU and the US in 1994, 1998 and 1999. The EU and the US agreed to strengthen their relationship in the Transatlantic Declaration of 1990, the New Transatlantic Agenda of 1995, the Transatlantic Economic Partnership of 1998 and the Bonn Declaration of 1999. The common commercial policy should be complemented by further dissemination of general knowledge through more intensive dialogue between the actors in EU-US relations.
- (3) The European Parliament has adopted a resolution and the Economic and Social Committee an opinion on relations between the EU and Canada in 1996, calling for closer relations with Canada. The EU and Canada signed a Framework Agreement for commercial and economic cooperation in 1976 and a Declaration on EC-Canada relations in 1990, and agreed to strengthen their relationship in the Joint Action Plan and the Joint Political Declaration of 1996. EU-Canada relations have become more diversified and Canada is a key partner in multilateral trade areas and in issues relating to global challenges and the Common Foreign and Security Policy. It is therefore necessary to further strengthen these relations by means of an intensified process of consultation and cooperation on an increasing number of issues.
- (4) Activities covered by specific instruments, such as the Agreements between the Community and the United

States of America and between the Community and Canada establishing programmes for cooperation in higher education and training, shall be complemented and not affected by this Regulation.

- (5) The EU and Japan decided to intensify their dialogue and to strengthen their cooperation and partnership in the Joint Declaration of 1991. The European Parliament has adopted a resolution on the communication from the Commission to the Council on 'Europe and Japan: the next steps'. The Council's conclusions to the Commission's communication on Japan recognised the distinct and specific problems of market access in Japan. The Council considered that priority should be given to improving access to the Japanese market. In the light of this, the Council adopted Council Regulation (EC) No 1035/1999 of 11 May 1999 on implementation by the Commission of a programme of specific measures and actions to improve access of European goods and cross-border services to Japan. This Regulation will expire on 31 December 2001. The preliminary results evaluating the Commission programme described above have shown the usefulness and effectiveness of the programme. It is therefore deemed necessary to continue implementing the Commission programmes described in the said Regulation. This Regulation is without prejudice to the Council Decision of 18 May 1992 on the consolidation of the EC-Japan Centre for Industrial Cooperation which remains valid.
- (6) Bilateral cooperation in economic and other areas with the Republic of Korea should be enhanced in accordance with the principles of the Framework Agreement on Trade and Cooperation with Korea, the European Parliament's opinion, and the Council's Conclusions on the Korean Peninsula. The EU should support market principles in Korea and promote the removal of existing barriers to trade and investment.
- (7) The EU and Australia agreed to strengthen their relationship and to cooperate across the many areas in which they have shared interests in the Joint Declaration of 1997. With a view to further strengthen these relations, an intensified process of consultation and cooperation on an increasing number of bilateral and international issues is necessary.
- (8) The EU and New Zealand agreed in the Joint Declaration of 1999 to strengthen their relationship and cooperation based on broadly shared interest to the mutual benefit of their peoples, and to endow their mutual relations with a long term perspective.

- (9) There are currently a large number of small budget lines from which the various Community actions with regard to the promotion of cooperation and commercial relations vis-à-vis the industrialised countries referred to in this Regulation are financed. Some budgetary appropriations were made available under these different budget lines for the financing of pilot schemes and preparatory actions. After two years experience with these pilot schemes and preparatory actions the measures implemented up to now have proved their usefulness and demonstrated the need for continuation as regular activities. The Community must have the necessary means at its disposal on a regular basis to be able to implement such measures in the future. It is therefore deemed necessary, for the sake of efficiency, rationalisation and continuation, to establish a single budget line for funding the activities referred to in this Regulation.
- (10) The activities of Member States to draw up and implement programmes and arrangements to promote their exports of goods and cross-border services to third country markets shall not be affected by this Regulation.
- (11) In accordance with Article 2 of Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission, measures for the implementation of this Regulation should be adopted by use of the advisory procedure provided for in Article 3 of that Decision.
- (12) Part of the activities falling within the scope of this Regulation are covered by Article 133 of the Treaty; for the other activities, the Treaty does not provide for powers other than those in Article 308 thereof.

HAS ADOPTED THIS REGULATION:

#### Article 1

The Community shall continue to implement actions to promote cooperation and commercial relations between the Community and the industrialised countries of North America, the Far East and Australasia.

For the purpose of this Regulation, the industrialised countries of North America, the Far East and Australasia shall comprise of the United States, Canada, Japan, the Republic of Korea (hereinafter referred to as 'Korea'), Australia and New Zealand, hereinafter referred to as 'the partner countries'.

#### Article 2

The amount of Community funding deemed necessary for the implementation of the actions identified in this Regulation will be established by the budget authority on an annual basis.

#### Article 3

##### Cooperation

Actions to promote cooperation shall be used to support the objectives laid down in the various bilateral instruments in this field between the EU and the partner countries, in order to create a more favourable environment for the conduct and further development of the relations between the EU and the partner countries.

#### Article 4

EU financing in the field of cooperation shall cover, in particular, the following types of activities:

- (a) education and information of the public on the bilateral relations between the EU and the partner countries, with particular reference to decision makers, opinion formers and other multipliers;
- (b) strengthening cultural, academic and people-to-people links;
- (c) promotion of the dialogue between political, economic and social partners and NGOs in various relevant sectors;
- (d) research work and studies destined to provide input to the Commission's work, with a view to further develop bilateral relations;
- (e) cooperative projects in science and technology, energy, transport and environmental matters;
- (f) enhancing customs cooperation between the EU and the partner countries;
- (g) enhancing the visibility of the EU in the partner countries;
- (h) pilot schemes, which could subsequently lead to new regular activities to be financed.

#### Article 5

The financing of cooperation projects will be made from the Community's budget either in totality or will take the form of co-financing with other sources in the partner countries and/or the EU. When implementing Article 4, the Commission shall ensure that the cooperation projects are legally and substantially coherent with activities financed under other relevant policies of the Community.

#### Article 6

##### Commercial relations

Actions to promote commercial relations shall contribute to the deepening of relations between the EU and the partner countries. They shall be aimed in particular at the development of closer trade and investment relations between the EU and the partner countries, enhancing mutual understanding of trade regulations and business practices and creating an environment more favourable for Community enterprises, notably SMEs, on the markets of the partner countries.

*Article 7*

The Community shall implement a specific, coherent and targeted programme of measures and actions to promote the exports of Community goods and cross-border services to Japan and Korea that complement and bring added value to the efforts undertaken by Member States and other European Union public bodies in the Japanese and Korean markets.

*Article 8*

1. EU financing in this field shall cover the following principal measures and actions:

- (a) training programmes to build up pools of European executives able to communicate and operate in the Japanese and Korean business environment ('Executive Training Programmes');
- (b) the recruitment, training, pre-mission preparation and participation of groups of European business executives, notably from SMEs, to participate in actions in Japan aimed at improving their commercial presence on the Japanese market (the 'Gateway to Japan' campaign);
- (c) A study will be commissioned with a view to assess the feasibility of a Gateway to Korea campaign. On the basis of the results of the study, the Commission may, after having taken account of the opinion delivered by the Advisory Committee referred to in Article 9, decide to launch a Gateway to Korea campaign.

2. In addition to the measures and actions referred to in paragraph 1, support may be given to the following actions and measures, where appropriate:

- (a) the collection of information and policy advice on trade-related issues;
- (b) conferences and seminars to promote trade and investment relations between the European Union and the partner countries;
- (c) high-level business missions to address specific market access issues in Japan and Korea;
- (d) special actions that facilitate access to the Japanese and Korean markets by Community enterprises, notably SMEs.

3. When implementing paragraph 2, the Commission shall ensure the full compatibility of specific activities with the policies of the Community and the Member States.

*Article 9***Implementing procedures**

1. In carrying out the activities referred to in Article 8, the Commission shall be assisted by a committee, composed of the representatives of the Member States and chaired by the representative of the Commission.

2. Where reference is made to this paragraph, the advisory procedure laid down in Article 3 of Decision 1999/468/EC shall apply, in compliance with Article 7(3) thereof

*Article 10*

The Commission shall submit to the European Parliament and the Council an annual report on the implementation of this Regulation. The report shall set out the results of implementation of the budget and present the actions and programmes financed during the year.

In addition, the Commission shall regularly evaluate actions and programmes financed under this Regulation in order to establish whether they have achieved their objectives. This evaluation shall be made at least once every six years, with the first such evaluation being completed within three years of the entry into force of the Regulation. Where necessary, evaluation reports shall also take account of contractual obligations and principles of sound management and shall include the results of a cost-effectiveness analysis.

A limited proportion of the annual budget shall be used to finance evaluation studies of the actions and programmes undertaken within the framework of this Regulation.

*Article 11*

1. Regulation (EC) No 1035/1999 is hereby repealed.
2. Any reference to the repealed Regulation shall be deemed to be a reference to this Regulation.

*Article 12*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
