Proposal for a

COUNCIL DECISION

**on the conclusion of an agreement between the European Community and Canada
on trade in wines and spirit drinks**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. This agreement between Canada and the European Community is the result of bilateral negotiations which took place from 7 November 2001 to 24 April 2003 on the basis of a negotiating mandate adopted by the Council on 1 August 2001 (Doc. 11170/01). The agreement comprises arrangements for the reciprocal trade in wines and spirit drinks with a view to creating favourable conditions for its harmonious development.
2. The agreement specifies oenological practices which may be used by producers of wine exported to the other Party, as well as a procedure for accepting new oenological practices. The Community's simplified system of certification will be applied to imported wines originating in Canada. Canada will not introduce import certification for Community wines and will simplify the extent of such testing requirements as are currently applied by provinces, within a year of entry into force. Production standards are agreed for wine made from grapes frozen on the vine. Concerning production standards for spirit drinks, the agreement provides that Canada will adhere to Community standards for its exports of whisky to the Community.
3. Procedures whereby geographical indications relating to wines and spirit drinks of either Party may be protected in the territory of the other Party are agreed. The current "generic" status in Canada of 21 wine names will be ended by the following dates: 31 December 2013 for Chablis, Champagne, Port and Porto, and Sherry; 31 December 2008 for Bourgogne and Burgundy, Rhin and Rhine, and Sauterne and Sauternes; the date of entry into force of the agreement for Bordeaux, Chianti, Claret, Madeira, Malaga, Marsala, Medoc and Médoc, and Mosel and Moselle. The spirit designations Grappa, Ouzo, Jägertee, Korn, Kornbrand, and Pacharán, will be protected in Canada for product of the Community, while the designation Rye Whisky will be protected for product of Canada.
4. The agreement will be managed by means of a Joint Committee and procedures are laid down for amending annexes, arranging consultations, dealing with disputes including reference to arbitration, and terminating the agreement.
5. Concerning the Canadian provincial alcohol monopolies, the Liquor Boards, the agreement between the EC and Canada of 28 February 1989 is substantially enhanced in order to ensure improved commercial treatment of suppliers of Community product in relation to pricing, opportunity to compete for purchases, listing decisions, and conditions of retail sale. The Liquor Boards may continue to provide for exclusive outlets for wines and spirits produced in Canada and for wines bottled in Québec under similar conditions that have applied since 1989.
6. It has not been possible to reach agreement at this stage on wine labelling (matters other than the use of geographical indications) and the use of the term "Highland Whisky". The Parties are committed to further bilateral negotiations with a view to reaching agreement.
7. The Commission therefore proposes that the Council adopt the proposal for a decision on the conclusion of this agreement set out in the Annex.
8. Financial impact: there is no financial impact arising from this agreement.

Article 3 *DEFINITIONS*

In this agreement, "originating", when used in relation to the name of the Community or one of its Member States or Canada, indicates that the wine or spirit drink is produced within the jurisdiction concerned and, in the case of wine, that it is produced solely from grapes harvested in the territory of that jurisdiction.

Article 4
GENERAL IMPORT AND MARKETING RULES

Unless otherwise provided for in this agreement, importation and marketing shall be conducted in compliance with the laws and regulations applying in the territory of the Contracting Party of importation.

TITLE II
OENOLOGICAL PRACTICES AND PROCESSES AND PRODUCT SPECIFICATIONS

Article 5

AND PROCESSES AND PRODUCT SPECIFICATIONS

1. The Community shall authorise the importation and marketing in its territory of wines originating in Canada produced in accordance with:
 - the oenological practices and processes listed in Annex I(A); and

3. The Contracting Parties recognize that the oenological practices and processes listed in Annex I meet the requirements set out in Article 6(2).

Article 6
NEW PRACTICES OR MODIFICATIONS OF PRACTICES

1. Each Contracting Party shall endeavour to inform the other Contracting Party under the procedures set out in Title VII, at the earliest reasonable opportunity, of developments which could lead, in relation to wine produced in its territory, to the authorisation of an oenological practice, process or modification not listed in the relevant paragraph of Annex I, with a view to agreeing on a common approach.
2. Without prejudice to Article 35, new oenological practices, processes or modifications, used for the production of wine shall meet the following requirements:
 - (a) protect consumers from false or misleading practices which could create an erroneous impression about the product's character, composition, quality or value; and

- (b) meet the standard of good oenological practice. In particular the oenological practice, process or modification should:
- not be prohibited in the laws and regulations of the originating country;
 - protect the authenticity of the product by safeguarding the concept that the typical features of the wine arise from its origin in the grapes harvested and also takes into account the region of cultivation, and in particular, climatic, geological and other production conditions;
 - be based on a reasonable technological or practical need to enhance the keeping qualities, stability or consumer acceptance of the wine; and
 - ensure that the processes or additions are limited to the minimum necessary to achieve the desired effect.
3. A Contracting Party shall notify within 90 days the other Contracting Party where, in relation to wine produced in its territory, it has authorised an oenological practice, process or modification not listed in the relevant paragraph of Annex I.
4. The notification shall contain a description of the oenological practice, process or modification not listed in the relevant paragraph of Annex I.

Article 7
PROVISIONAL AUTHORISATION

Without prejudice to measures foreseen by Article 35, wines produced with the oenological practice, process or modification notified by a Contracting Party under Article 6(3) shall be provisionally authorised for import and marketing in the territory of the other Contracting Party.

Article 8
OBJECTION PROCEDURE

1. Within a period of ten months from the notification by a Contracting Party under Article 6(3), the other Contracting Party may object in writing to the notified oenological practice, process or modification on the ground that it does not meet the requirements of Article 6(2)(a) and (b). Either Contracting Party may seek consultations provided for in Article 29. Should such consultations fail to resolve the matter, either Contracting Party may notify, in writing, the other Contracting Party of its decision to refer the issue to arbitration under Article 31.
2. A Contracting Party may not oppose the acceptability of a notified oenological practice, process or modification if it has already approved, other than for temporary experimental purposes, the same oenological practice, process or modification for wines marketed in its territory, subject to the justification of the oenological practice, process or modification in question to the climatic, geological or other production conditions in the areas in which it will be used.
3. Nothing in this agreement shall limit the use of any oenological practice, process or modification not accepted by a Contracting Party in accordance with the procedures in this agreement in instances in which the product is marketed on either the domestic market of the other Contracting Party or a third party market.

Article 9
MODIFICATION OF ANNEX I

1. The Contracting Parties shall modify the relevant paragraph of Annex I to add the oenological practice, process or modification notified pursuant to Article 6(3) within 12 months of the date of such notification.
2. By way of derogation from paragraph 1, where a Contracting Party has invoked the objection procedure provided for in Article 8, the Contracting Parties shall act in accordance with the outcome of the consultations, unless the matter is referred to arbitration, in which case:
 - (a) if the arbitrators determine that the notified oenological practice, process or modification fulfils the requirements set out in Article 6(2)(a) and (b), the Contracting Parties shall amend the relevant paragraph of Annex I to add the oenological practice or process within 90 days of the date of such determination;
 - (b) if however, the arbitrators determine that the notified oenological practice, process or modification does not fulfil the requirements set out in Article 6(2)(a) and (b), then the provisional authorisation for the import and marketing of wines originating in the notifying Contracting Party produced in accordance with the oenological practice, process or modification in question, as referred to in Article 7, shall cease after 30 days from the date of such determination. Such determination shall not affect the continued applicability of Article 7 in relation to the marketing of wine imported into the territory of the Contracting Parties before the date of the determination.

1. In the event that the use of a geographical indication listed in Annex III(a) is asserted in Canada under the circumstances foreseen in Articles 24.4 and 24.5 and the first sentence of Article 24.6 of the TRIPS Agreement, Canada may elect not to apply, to the minimum extent necessary, the provisions of Articles 10(2) and 14(2) of this agreement. Any such measures taken by the Community shall be proportionate to the adverse commercial effect caused by Canada's reliance on paragraph 1 and may not last longer than the non-application of the said Articles by Canada.
4. The Community shall not adopt measures pursuant to paragraph 3 when the circumstances causing reliance by Canada on paragraph 1 relate to a name that the Community has agreed can be used in the Community market or in export markets under agreements with third countries.
5. Either Contracting Party may terminate this agreement by giving one year's written notice to the other Contracting Party. However, in case the use of a geographical indication listed in Annexes III(a) or IV(a) is asserted in Canada under the first sentence of Article 24.6 of the TRIPS Agreement as foreseen in paragraph 1, the Community may terminate this agreement by giving three months written notice to Canada.
6. Should either Contracting Party terminate the 1989 agreement as amended by this agreement, such termination shall also effect a simultaneous termination of the present agreement.

IN WITNESS WHEREOF, the undersigned, being duly authorized to that effect, have signed this Agreement.

Done in duplicate, at ... this ... day of ..., 2003.

of CANADA,

have adopted the Joint Declarations mentioned below and attached to this Final Act:

- Joint Declaration on rules of origin,
- Joint Declaration on WTO negotiations,

For the European Community

For the government of Canada

JOINT DECLARATION

on rules of origin

The Contracting Parties agree to consult on the issue of rules of origin related to wine following the conclusion of negotiations in the WTO Harmonization Work Programme for non-preferential rules of origin with a view to reflecting the outcome of those negotiations in this agreement.

JOINT DECLARATION

on WTO negotiations

The Contracting Parties hereby declare the provisions of this agreement to be without prejudice to their respective positions in the ongoing negotiations within the WTO related to intellectual property and rules of origin.

JOINT DECLARATION

on labelling

The Contracting Parties agree that provisions referring to terms regulated in Canada or in the Community shall only apply to the extent those terms are so regulated.

The Contracting Parties note the importance attached by each to their respective systems of label regulation and in particular by the Community to traditional expressions used to denote quality of certain wines and the need to protect these expressions in order to avoid misleading consumers. The Community recognizes that Canada has fundamental concerns about the nature, scope and applicability of this protection. The Contracting Parties agree to continue to discuss this issue bilaterally.

The Contracting Parties agree that where wines have been certified by a competent Canadian authority listed in Annex VI to meet the requirements of VQA rules in Canada, they shall be presumed to have met the requirements under Article 20 and Article C of Annex V.

JOINT DECLARATION

on outlets

The Contracting Parties take note of the relative commercial significance of outlets available to product of the Community and product bottled in the Community compared with that of restricted outlets. If, as a result of the derogations contained in Annex VIII Article C, the relative commercial significance of the restricted outlets should substantially increase, the Parties shall examine whether any modifications to those derogations are necessary to retain the equilibrium of concessions under the 1989 agreement and this agreement.

JOINT DECLARATION

on "Highland Whisky"

The Contracting Parties agree to enter into discussions concerning the term "Highland Whisky", with a view to reaching an agreement by 30 June 2005 concerning the use of the term, in line with any WTO rights and obligations, which does not mislead consumers as to the origin of the whisky, and which takes into account the usage of the term in Canada in recent years.

DECLARATION BY THE COMMUNITY

on geographical indications

The Community declares that the names listed in Annex III(a) and Annex IV(a) to the agreement are geographical indications within the meaning of Article 22.1 of the TRIPS Agreement, are in use and protected in the Community.

DECLARATION BY CANADA

on geographical indications

Canada declares that the names listed in Annex III(b) and Annex IV(b) to the agreement are geographical indications within the meaning of Article 22.1 of the TRIPS Agreement, are in use and protected in Canada.
