Proposal for a

COUNCIL DECISION

**on the accession of the Community to United Nations Economic Commission for Europe
Regulation No. 55 on provisions concerning the approval of mechanical coupling
components of combinations of vehicles**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. GENERAL

By Council Decision 97/836/EC of 27 November 1997, the EC became a contracting party to the United Nations Economic Commission for Europe's (UN/ECE's) Revised 1958 Agreement on 24 March 1998 and acceded to 78 regulations appended to that Agreement. That Decision took effect on 24 March 1998.

Article 3(3) of that Decision states, in particular, that the Community may decide to implement a regulation to which it had not acceded when it acceded to the revised Agreement if the Council approves that regulation by a qualified majority after receiving the assent of the EP.

UN/ECE Regulation No. 55 on provisions concerning the approval of mechanical coupling components of combinations of vehicles is aimed, in particular, at removing technical barriers to the trade in motor vehicles between the contracting parties while ensuring a high level of safety in the operation of vehicles. Although this Regulation was not included in the list of regulations recognised by the EC contained in Annex II to Decision 97/836/EC, the Commission considers that, as both European and UN requirements have changed since that time, it would now be desirable for the EC to accede thereto.

It is also provided that the Regulation concerned shall be incorporated into the approval system for motor vehicles.

It should be stressed that the EC will take its decision regarding accession to this Regulation on the basis of the documents that are available in the official languages of the UN/ECE (English, French and Russian). As the EC has become party to the 1958 UN/ECE agreement, it is required to observe the procedures provided for in that agreement. Therefore only the French and English versions of Regulation No. 55 have been appended. Translations of this Regulation will be published at a later date.

2. CONTENTS OF THE PROPOSAL FOR A DECISION

The purpose of the proposal for a decision is to enable the Community to accede to UN/ECE Regulation No. 55 on provisions concerning the approval of mechanical coupling components of combinations of vehicles.

COUNCIL DECISION

on the accession of the Community to United Nations Economic Commission for Europe Regulation No. 55 on provisions concerning the approval of mechanical coupling components of combinations of vehicles

(Text with EEA relevance)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 97/836/EC of 27 November 1997 with a view to accession by the European Community to the Agreement of the United Nations Economic Commission for Europe concerning the adoption of uniform technical prescriptions for wheeled vehicles, equipment and parts which can be fitted to and/or be used on wheeled vehicles and the conditions for reciprocal recognition of approvals granted on the basis of these prescriptions (“Revised 1958 Agreement”)¹, and in particular Article 3(3) and the second indent of Article 4(2), thereof,

Having regard to the proposal from the Commission,

Having regard to the assent of the European Parliament²,

Whereas:

- (1) The standardised requirements of Regulation No. 55 on provisions concerning the approval of mechanical coupling components of combinations of vehicles are intended to remove technical barriers to the trade in motor vehicles between the Contracting Parties and to ensure a high level of safety and protection in the operation of vehicles.
- (2) Regulation No. 55 was not included in Annex II of Council Decision 97/836/EC as it did not comport with Community technical requirements and specifications at the time of Community accession to the Revised 1958 Agreement.
- (3) In light of subsequent amendments, Regulation No. 55³ should be incorporated into the Community system for the type approval of motor vehicles.
