ANNEX

AGREEMENT IN THE FORM OF AN EXCHANGE OF LETTERS

between the European Community and the Republic of Iceland concerning additional trade preferences in agricultural products undertaken on the basis of Article 19 of the Agreement on the European Economic Area

A. Letter from the European Community

Sir,

I have the honour to refer to the trade negotiations between the European Community and the Republic of Iceland on agricultural products, held from 6 March 2005 to 18 November 2005, undertaken on the basis of Article 19 of the Agreement on the European Economic Area.

With the aim of fostering a harmonious development of trade between Parties, the European Community and the Republic of Iceland have agreed to additional bilateral trade preferences concerning agricultural products, with due consideration to the respective agricultural policies and circumstances, including the evolution of the bilateral trade and trade with other partners.

I hereby confirm that the results of the negotiations were as follows:

1. From 1 January 2007, the European Community and the Republic of Iceland will reciprocally consolidate at bilateral level the existing zero duty lines, be it applied duties or existing concessions, and, if not already at zero level, to reciprocally eliminate duties on bilateral imports, for all products originating in the parties, which are listed in Annex I.
2. From 1 January 2007, the European Community will provide tariff quotas on imports into the Community of products originating in Iceland, which are listed in Annex II.
3. From 1 January 2007, the Republic of Iceland will provide tariff quotas on imports into Iceland of products originating in the Community, which are listed in Annex III.
These bilateral concessions replace and consolidate all existing bilateral concessions in agricultural products that are currently in force, in application of Article 19 of the Agreement on the European Economic Area².
4. The Republic of Iceland agrees to end its unilateral and temporary *erga omnes* reductions in applied tariffs on agricultural products put in place in 2002 and prolonged so far on a yearly basis.
5. The provisions of Protocol 3 to the Agreement between the European Economic Community and the Republic of Iceland³ concerning the definition of the concept of

7. The Parties agree to take the necessary steps in order to ensure that tariff quotas will be managed in such a way that imports may take place regularly and that the quantities agreed for import can effectively be imported. The Parties will manage the tariff quotas listed in Annexes II and III on a first come first served basis or by using other equivalent methods.
8. The Parties agree to strive for promoting trade of eco-friendly products and products with a geographical indication. The Parties agree to engage into further bilateral discussion with a view to better understand respective legislation and registration procedures, in order to identify ways to enhance the protection of geographical indications in the territories of both Parties.
9. The Parties agree to exchange at regular interval information on traded products, tariff quota management, price quotations and any useful information concerning the respective domestic markets and the implementation of the results of these negotiations.
10. Consultations will be held at the request of either party on any question relating to the implementation of the results of these negotiations. In case of difficulty in the implementation of the results of these negotiations, these consultations will be held as promptly as possible, with a view to the adoption of appropriate corrective measures.
11. The first consultations relating to the results of these negotiations will be held before that implementing arrangements are put in place, with a view to facilitate the smooth implementation of these negotiations.
12. The results of these negotiations will be implemented as from 1 January 2007. Where necessary, tariff quotas will be opened on a pro-rata basis.
13. The Parties agree to resume bilateral negotiations in the framework of Article 19 of the Agreement on the European Economic Area in two years time, with particular consideration to the outcome of the WTO negotiation process in agriculture.

I have the honour to confirm that the European Community is in agreement with the contents of this letter.

I should be obliged if you would confirm that the Government of the Republic of Iceland is in agreement with the above.

Please accept, Sir, the assurance of my highest consideration.
