Proposals for

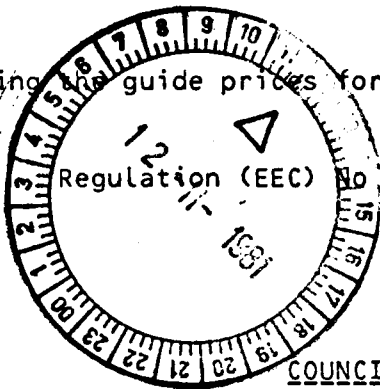

COUNCIL REGULATION (EEC)

fixing the guide prices for the fishery products listed in Annex 1(a) and (c) to Regulation (EEC) No 100/76 for the 1982 fishing year

COUNCIL REGULATION (EEC)

fixing the guide prices for the fishery products listed in Annex II

Regulation (EEC) No 100/76 for the 1982 fishing year

COUNCIL REGULATION (EEC)

fixing the intervention prices for fresh or chilled sardines and anchovies for the 1982 fishing year

COUNCIL REGULATION (EEC)

fixing the Community producer price for tunny intended for the canning industry for the 1982 fishing year

(presented by the Commission to the Council)

EXPLANATORY MEMORANDUM

The present regulation is intended to fix guidance prices for products listed in annex I, A and C of Regulation (EEC) No 100/76 on the common organization of the market in the fishery products sector for 1982. Article 9 of this regulation allows for the fixing of a guide price for each of the products which is established for each fishing season on the basis of the average price on the wholesale market or representative port during the three fishing seasons preceeding the fixing of the price for a significant proportion of the Community output for a product of defined market characteristics.

The starting point in the price fixing procedure for 1982 has been the comparison of the mean of the prices set out below established during the period 1979/1981 (1981 : six months) and that of the period 1978/1980, this latter having been the base for fixing the guide price for 1981. Market weaknesses already noted for 1980 continued into 1981 and the market tended to become firmer only towards the end of this year. The effects of the guide price for 1982 on the level of the withdrawal prices and the desired relationship between these prices with regard to the lowest prices noted on the Community market have been correspondingly taken into account with regard to this tendency. Nevertheless for certain products, a increase in the guide price may be envisaged.

Given this situation, it is proposed that 1981 guide prices for mackerel, anchovies and herrings be retained for 1982 and an increase in the guide price of from 2 - 6 %, according to species, should be allowed for with regard to other products.

COUNCIL REGULATION (EEC) No

of

fixing the guide prices for the fishery products listed in Annex I (A) and (C) to Regulation (EEC) No 100/76 for the 1982 fishing year

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 100/76 of 19 January 1976 on the common organization of the market in fishery products⁽¹⁾, as last amended by Regulation (EEC) No 3443/80⁽²⁾, and in particular Article 9 (4) thereof,

Having regard to the proposal from the Commission,

Whereas Article 9 (1) of Regulation (EEC) No 100/76 provides that guide prices shall be fixed for each of the products listed in Annex I (A) and (C) thereto at a level which will help to stabilize market prices without leading to the formation of structural surpluses within the Community;

Whereas the guide prices for the said products were fixed for the 1981 fishing year by Regulation (EEC) No 234/81⁽³⁾;

Whereas the application of the abovementioned criteria defined in Article 9 of Regulation (EEC) No 100/76 involves for the 1982 fishing year, for some products an increase and for other products a stabiliza-

tion in prices by comparison with those valid for the current fishing year; whereas, with regard to variations in the seasonal characteristics of place, the guide price should be increased from 1 May 1982; whereas, in the absence of certain information concerning price trends for each fishery product with given commercial specifications, consideration should be given to the relationship between the average weighted market prices recorded when the guide prices were fixed for the previous fishing year for these products, and the average weighted market prices now current,

HAS ADOPTED THIS REGULATION:

Article 1

The guide prices applicable until 31 December 1982 for the products listed in Annex I (A) and (C) to Regulation (EEC) No 100/76 and the products to which they relate are fixed in the Annex hereto.

Article 2

This Regulation shall enter into force on 1 January 1982.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

EXPLANATORY MEMORANDUM

Under Regulation (EEC) No 100/76 on the common organization of the market in fishery products, a guide price is to be fixed for each of the products listed in Annex II to the Regulation for a product with given commercial characteristics and based on the average of prices recorded on representative wholesale markets or in representative ports during the three fishing years immediately preceding the fixing of the price for a significant proportion of the Community output.

Examination of the development of prices for the products in question shows that for certain products the guide price should be increase and for the others it should be maintained for the 1982 fishing year.

The present proposal takes into account the Council declaration relating to the level of these prices. The Council invites the Commission to take into consideration, at the submission of the proposal relating to intervention prices, the importance which is attached to the need for these prices to be near the upper limit of the bracket shown in Article 9, paragraph 3" (cf.
