AGREED RECORD OF CONCLUSIONS OF FISHERY CONSULTATIONS BETWEEN THE
EUROPEAN ECONOMIC COMMUNITY AND THE FAROE ISLANDS - BRUSSELS, 6 FEBRUARY 1981

I. A delegation of the Community headed by Mr. M. Marcussen and a delegation representing the Home Government of the Faroe Islands headed by Mr. P. ELLEFSEN met in Brussels on 6 February 1981 for consultations on mutual fisheries relations in 1981. This meeting was a continuation of previous meetings in Brussels.

II. The delegations agreed to recommend their respective authorities the quota arrangements for 1981 set out in the Annex.

III. Fishery regulations

1. The Community delegation informed the Faroese delegation that fishing for herring in Skagerrak is subject to the following provisions :

- a) Directed fishing for herring is prohibited from 1 January to 31 March 1981 and from 1 October to 31 December 1981 ;
- b) Directed fishing for herring for purposes other than human consumption is prohibited ;
- c) The use of trawl and purse seine is prohibited from Saturday midnight to Sunday midnight.

2. The Faroese delegation informed the Community delegation about the technical measures which will apply for fishing in Faroese waters in 1981.

3. The delegations agreed that a Party intending to introduce or to amend fishery regulations applicable to vessels of the other Party shall inform the latter of such intentions with a notice of at least two weeks. Consultations shall be held if so requested by either Party.

IV. Future negotiations

1. The Community delegation expressed its concern over recent increases of catches in Faroese waters of salmon originating in rivers within the Community. The Faroese delegation stated that the Faroese Home Government is prepared to cooperate with the Community on the conservation of salmon in accordance with the principles mentioned in Art. 66 of the Draft Convention on the Law of the Sea elaborated by the Third United Nations Conference on the Law of the Sea .

.. M M

Accordingly the delegations agreed to open consultations no later than 30 April 1981 with a view to establishing a limitation of catches in the fishery zone of either party of salmon originating in the rivers of the other party.

2. If the situation of the cod stocks off West and East Greenland improves and the cod fishing will be reopened for fishermen other than Greenland fisherman, the parties will consult with a view to establishing a quota for the Faroe Islands for these stocks, taking into account Faroese fishing interests in the area.

3. If herring fishery in ICES division IV and VIa should be reopened in 1981, the parties shall consult.

V. Licences

The delegations agreed to recommend to their authorities that licences in force as of 31 December 1980 shall remain in force until 15 March 1981 and that the parties shall consult before 28 February 1981 on the licensing regimes applicable for the rest of 1981.

mm

VI. Unilateral declarations

1. The Faroese delegation, although accepting the exchange of fishing quotas described in the Annex as the best solution obtainable in order to avoid an economically and politically unacceptable termination of mutual fishing, expressed its concern over the continued decline in the level of the overall balance in mutual fishing rights and its dissatisfaction with the narrow margin in favour of the Faroe Islands.

The Faroese delegation stressed that the overwhelming dependence on fisheries of the Faroe Islands and their status as a part of the Kingdom of Denmark, which also are recognised in the Framework Agreement, should result in a substantial margin in favour of the Faroe Islands. The Faroese authorities expressed their intention to call for consultations between the authorities concerned regarding ways and means to reach future solutions which to a greater extent could take account of the special situation of the Faroe Islands.

2. The Community delegation underlined that the different area restrictions applicable in the Faroese fishery zone have in the past prevented the full utilization of the quotas allocated to the Community. This delegation considered that if the same were true in 1981 a substantial improvement in the fishery regulations would be necessary to maintain the reciprocal quota arrangements in future years at a level close to that of the arrangement set out in the annex to this record.

Brussels, 6 February 1981

P. ELLEFSEN

M. MARCUSSEN
