COMMISSION OF THE EUROPEAN COMMUNITIES

COM(79) 66 final

Brussels, 16 February 1979

Proposal for a

COUNCIL REGULATION (EEC)

laying down for 1979 certain measures for the conservation
and management of fishery resources applicable to vessels
flying the flag of Sweden

(submitted to the Council by the Commission)

COM(79) 66 final

EXPLANATORY MEMORANDUM

Pursuant to the Framework Agreement on Fisheries between the European Economic Community and Sweden signed on 21 March 1977 the two parties have consulted about their fisheries relations in 1979. These consultations have resulted in agreement between the two delegations about fishing rights for the year 1979 for each party in the waters of the other and about the need to introduce TAC's for certain joint stocks occurring in Kattegat and their allocations between the parties.

Furthermore tripartite consultations between the Community, Norway and Sweden about regulatory measures for fishing in Skagerrak and part of Kattegat have resulted in agreement between the delegations about the need to establish TACs for certain fish stocks occurring in these areas and about the size and allocations of these TACs.

It is the purpose of the two Regulations proposed hereby to establish a regime allowing Swedish vessels to fish in the Community fishery zone in accordance with the agreements reached during the said consultations.

The arrangements provided for in these Regulations are based upon the attached Agreed Records of the conclusion of the consultations. Since the interim regime under which Swedish vessels are authorised to fish at present in the Community's fishery zone (Regulation (EEC) no. 3151/78) expires on 28 February 1979 it is necessary that a new regime is adopted before that date if an interruption of the reciprocal fishing activities between the Community and Sweden is to be avoided.

In order to respect this time limit the Commission proposes that the proposed regime be established initially by an interim Regulation on the basis of Article 103 of the Treaty and subsequently replaced by a Regulation adopted under Article 43. The Commission therefore submits at the same time proposals for two Regulations.

The Council is invited to adopt the Regulation based upon Article 103 before 28 February and to adopt the second Regulation based upon Article 43 as soon as possible after having consulted the European Parliament.

COUNCIL REGULATION (EEC)

laying down for 1979 certain measures for the conservation and management of fishery resources applicable to vessels flying the flag of Sweden.

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (1),

Whereas on 3 November 1976 the Council adopted a set of resolutions concerning certain external and internal aspects of the common fisheries policy;

Whereas the Community and the Kingdom of Sweden have signed a Framework Agreement on fisheries;

Whereas the Commission has submitted the Agreement to the Council for approval;

Whereas the Community and Sweden have held consultations concerning their reciprocal fishing allocations for 1979;

Whereas during these consultations the delegations agreed to recommend their respective authorities that they fix certain catch quotas for 1979 for vessels of the other party;

(1) O.J.

Whereas the Agreement of 19 December 1966 between Denmark, Norway and Sweden on mutual access to fishing in Skagerrak and Kattegat provides that each party shall grant access to fishing by vessels of the other parties within its fishing zone in Skagerrak and part of Kattegat seawards of 4 nautical miles from baselines;

Whereas the Convention of 31 December 1932 between Denmark and Sweden concerning fishing conditions in the maritime waters bordering both parties provides that each party shall grant access to fishing by vessels of the other party within its fishing zone in the Kattegat seawards of 3 nautical miles from baselines and in certain parts of Øresund and the Baltic Sea up to the baselines;

Whereas in the context of these Agreements, the Community, Norway and Sweden and the Community and Sweden have consulted about regulatory measures in respect of fishing in the area covered by the Agreements;

Whereas in this context the parties have also consulted about regulatory measures for certain fish stocks occurring in an area falling within both Skagerrak and Kattegat.

Whereas during these consultations, the delegations agreed to recommend their respective authorities to introduce catch limitations for certain species in these areas;

Whereas the proposed catch limitations consist of quotas, allocated to each party, which are not subdivided according to the fishing zones of the parties;

Whereas by Regulation (EEC) No /79 of 1979 laying down for 1979 certain interim measures for the conservation and management of fishery resources applicable to vessels flying the flag of Sweden⁽¹⁾ the measures laid down in the present Regulation were adopted as interim measures pending their inclusion in the common agricultural policy by the adoption of a Regulation under Article 43 of the Treaty,

HAS ADOPTED THIS REGULATION:
