COMMISSION OF THE EUROPEAN COMMUNITIES

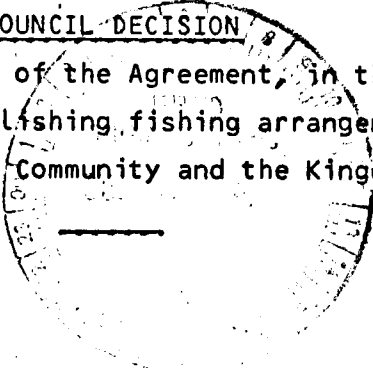

COM(82) 25 final

Brussels, 2 February 1982

Proposal for a

COUNCIL DECISION

on the conclusion of the Agreement, in the form of an exchange of letters, establishing fishing arrangements between the European Economic Community and the Kingdom of Norway for 1982

Proposal for a

COUNCIL REGULATION (EEC)

laying down for 1982 certain measures for the conservation and management of fishery resources applicable to vessels flying the flag of Norway

(submitted to the Council by the Commission)

COM(82) 25 final

EXPLANATORY MEMORANDUM

In accordance with the framework agreement on fisheries between the European Economic Community and Norway, the two parties held consultations define their reciprocal conditions for fishing in 1982. These resulted in an agreement on the subject of each party's fishing rights in 1982 in the other's waters and on the need to fix total allowable catches (TACs) for certain mixed stocks in the North Sea and their allocations between the parties. This agreement, in the form of an exchange of letters, was initialled by the two delegations.

The Commission proposes that the Council, at its next meeting, should adopt the draft decision annexed hereto, approving the agreement negotiated with Norway and should authorize its President to designate the persons empowered to sign the exchange of letters.

On the same occasion the Council is also invited to adopt, after consultation of Parliament, the Regulation proposed hereby. The purpose of this Regulation is to implement provisionally the conclusions of these consultations by amending the quotas laid down in Council Regulation (EEC) No. 849/81 for Norwegian vessels in the fishing zones of the Member States of the Community.

It is the purpose of the Regulation proposed hereby to establish a regime allowing Norwegian vessels to fish in the Community fishery zone in accordance with the agreement reached during the bilateral consultations. Since the interim regime under which Norwegian vessels are authorized to fish at present in the Community's fishery zone (Regulation (EEC) No. 81/82) expires on 31 March 1982 it is necessary that a new regime is adopted before that date if an interruption of the reciprocal fishing activities between the Community and Norway is to be avoided.

Proposal for a

COUNCIL DECISION

of

on the conclusion of the Agreement, in the form of an exchange of letters, establishing fishing arrangements between the European Economic Community and the Kingdom of Norway for 1982

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

HAS DECIDED AS FOLLOWS:

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Article 1

The Agreement in the form of an exchange of letters establishing fishing arrangements between the European Economic Community and the Kingdom of Norway for 1982 is hereby approved on behalf of the Community.

Having regard to the proposal from the Commission,

The text of the Agreement is annexed to this Decision.

Having regard to the opinion of the European Parliament ⁽¹⁾,

Article 2

The President of the Council is hereby authorized to designate the persons empowered to sign the Agreement binding the Community.

Whereas the Community and Norway have held consultations in accordance with the procedure provided for by the Fisheries Agreement between the European Economic Community and the Kingdom of Norway ⁽²⁾, and in particular Articles 2 and 7 thereof, concerning mutual fishing rights in 1982 and the management of joint biological resources;

Done at Brussels,

Whereas at the conclusion of these consultations the two delegations initialled an Agreement in the form of an exchange of letters;

Whereas it is in the Community's interest to conclude this Agreement,

*For the Council
The President*

⁽²⁾ OJ No L 226, 29. 8. 1980, p. 48.

Agreed record of conclusions of fishery consultations between Norway
and the European Economic Community, Brussels 19 December 1981

- I. 1. A Norwegian delegation, headed by Mr. T.S. PAULSEN and a Community delegation, headed by Mr. M. MARCUSSEN, met in Brussels from 18 to 19 December 1981 to consult on mutual fisheries relations for 1982.
2. The meeting in Brussels was a continuation of previous meetings in Oslo.
3. The delegations initialled the attached exchange of letters concerning fishery arrangements for 1982. These arrangements shall be applied provisionally as from 1 January 1982.

- II. 1.1. With respect to North Sea sprat and the Western mackerel stock, the Community delegation considered these to be exclusive Community stocks whereas the Norwegian delegations held the view that they are joint stocks.

In the absence of agreement on a joint management of these stocks, each Party will manage them autonomously.

- 1.2. The Norwegian delegation in this connection repeated its interest in obtaining catch statistics from the mackerel fishing in ICES sub-areas VI and VII.

2.2. The Community delegation informed the Norwegian delegation that the Community might introduce, in the course of 1982

- measures to limit by-catches in the directed fishery for sprat,
- a prohibition on mackerel fishing in ICES VIa from 1 March to 30 April 1982 and from 1 November to 31 December 1982,
- a prohibition on mackerel fishing by vessels using pelagic trawl and/or purse seine gear in that part of ICES division VIIe north of 49°30'N and west of 5°W, and in that part of Division VIIf south of 50°30'N from 16 February to 14 December 1982.

2.3. The Norwegian delegation informed that it will introduce a practical regulation of the sandeel and Norway Pout fisheries if difficulties arise in this fishery in 1982 in the Norwegian zone due to congestion of the fishing grounds.

3. If the situation of the cod stocks off West- and East Greenland improves and the Community decides to authorize fishing by EEC fishermen other than Greenland fishermen, the two Parties will consult about the possibility of establishing a quota for Norway for these stocks.

4. The Norwegian delegation stressed that the rate and pattern of exploitation, for certain demersal joint stocks in the North Sea were unsatisfactory and emphasized the need for further reductions in fishing mortality, increased mesh sizes and improved control of the by-catch regulations in the industrial fisheries.

5. With respect to the Norwegian quota for shrimps off East-Greenland, the Norwegian delegation held the view that if the TAC fixed for shrimp for this area should be higher than the recommended level, the Norwegian quota should be adjusted accordingly.

6. The Norwegian delegation stated that if the TAC for the herring stock in ICES area VIa should be fixed at a level higher than 60,000 tons, Norway would request consultations with a view to achieving a proportional increase in the Norwegian quota fixed for this area in 1982.
