COMMISSION OF THE EUROPEAN COMMUNITIES

COM(83) 503 final

Brussels, 8 September 1983

Proposal for a
COUNCIL DIRECTIVE
prolonging the validity of Article 7(1), points C and E
of Directive 64/432/EEC

(submitted to the Council by the Commission)

COM(83) 503 final

EXPLANATORY MEMORANDUM

The technical provisions relating to intra-Community trade in bovine animals concerning brucellosis are governed by Council Directive 64/432/EEC. In this Directive facultative derogations are allowed to Member States to trade bovine animals under 30 months of age intended for meat production and bovines under 42 days of age or had been castrated before the age of four months and also for bovine animals intended for immediate slaughter, coming from other than brucellosis free or officially free herds. These possibilities run out at the end of this year.

It is proposed to extend these possibilities for a further period of two years (end of 1985) to coincide with the Community financially aided programmes for the accelerated eradication of brucellosis, tuberculosis and leukosis which also terminate at the end of 1985.

Proposal for a
COUNCIL DIRECTIVE
prolonging the validity of Article 7(1), points C and E
of Directive 64/432/EEC

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 64/432/EEC of 26 June 1964 on animal health problems affecting intra-Community trade in bovine animals and swine¹, as last amended by Directive /EEC², and in particular Article 7(1), points C and E, thereof,

Having regard to the proposal from the Commission,

Whereas Directive 64/432/EEC laid down, in respect of intra-Community trade in bovine animals, health guarantees relating to brucellosis; whereas, however, Article 7(1), point C, thereof allows Member States to grant derogations until 31 December 1983 concerning trade in bovine animals which are intended for meat production and which are under 30 months of age; whereas, however, point E of Article 7(1) of that Directive also allows Member States to grant derogations concerning trade in bovine animals which are intended for meat production and which are under 42 days of age or have been castrated before the age of four months; whereas these authorizations may also be applied in respect of bovine animals intended for slaughter;

Whereas it is appropriate to facilitate trade in bovine animals whilst at the same time taking account of the current brucellosis situation in certain Member States;

Whereas the Community is successfully applying an accelerated scheme for brucellosis eradication;

Whereas, however, in certain Member States the total elimination of brucellosis has not yet been achieved, although it is expected that this objective will be realized within the next two years;

Whereas it is therefore necessary to prolong the validity of Article 7(1), points C and E,
