COMMISSION OF THE EUROPEAN COMMUNITIES

COM(83) 314 final

Brussels, 27 May 1983

Proposal for a
COUNCIL REGULATION (EEC)

fixing a carry-over payment for common wheat, rye and maize remaining
in stock at the end of the 1982/83 marketing year

(submitted to the Council by the Commission)

COM(83) 314 final

COM 314

EXPLANATORY NOTE

In the light of the current situation on the Community market, an end of season carry-over is proposed equal to not more than the difference in national currency between the intervention price applicable in the first month of the marketing year increased by 11 monthly increments and the intervention price applicable in the new marketing year for soft wheat, rye held by millers and maize in surplus areas.

The measure is identical to that fixed by the Council last year, and corresponds also to the Council decision of 16 and 17 May 1983.

Proposal for a
COUNCIL REGULATION (EEC)

fixing a carry-over payment for common wheat, rye and maize remaining in
stock at the end of the 1982/83 marketing year

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
2727/75 of 29 October 1975 on the common organi-
zation of the market in cereals⁽¹⁾, as last amended by
Council Regulation (EEC) No 1451/82⁽²⁾, and in parti-
cular Article 9 (1) and (5) thereof,

Having regard to the proposal from the Commission,

Whereas one of the purposes of the carry-over
payment provided for in Article 9 (1) of Regulation
(EEC) No 2727/75 is to prevent a massive inflow to
intervention of cereals, much of which could be
directly disposed of on the market before the new
harvest, at the moment when the monthly interven-
tion price increases end; whereas the market situation
for common wheat throughout the Community and
the situation for rye used for human consumption in
certain regions of the Community are such that a
carry-over payment should be granted for these
cereals;

Whereas there is a likelihood in certain regions of
quantities of maize being offered for intervention
although a deficit exists in the Community as a
whole; whereas a carry-over payment should therefore
also be given for this cereal; whereas, since the mar-
keting of a crop normally extends beyond the end of the
marketing year, the granting of a carry-over payment
helps to prevent the large quantities normally in stock
at the end of the marketing year going to intervention
during its last few months;

Whereas the amount of the carry-over payment should
be fixed by taking the difference between the single
common intervention price applicable on 1 August
1982, increased by 11 monthly increases and
converted into the national currency at the representa-
tive rate applicable on 31 July 1983, and the single
common intervention price applicable on 1 August
1983 converted into national currency; whereas,
where the calculation gives a negative amount, the
payment should be counted as nil;

Whereas the carry-over payment cannot be given for
cereals harvested in the Community during 1983
their cost has not been increased by any storage

element; whereas, in view of the connection between
the intervention and the carry-over payment systems,
carry-over payments should be given only for cereals
which are of sound and fair merchantable quality,
within the meaning of the provisions adopted in
implementation of Article 7 (5) of Regulation (EEC)
No 2727/75; whereas, however, in respect of rye held
by the milling industry, milling for human consump-
tion is accepted as proof of sufficient quality,

HAS ADOPTED THIS REGULATION:

Article 1

1. A carry-over payment shall be granted for
common wheat and for rye used for human consump-
tion, harvested in the Community and in stock there
at the end of the 1982/83 marketing year.

2. A carry-over payment shall also be granted for
maize harvested in the Community and in stock in
surplus production areas of the Community at the end
of the 1982/83 marketing year.

3. The carry-over payment shall be equal to the
difference between the single common intervention
price applicable on 1 August 1982 increased by 11
monthly increases and converted into national
currency at the representative rate applicable on 31
July 1983 and the single common intervention price
applicable on 1 August 1983 converted into national
currency. Where the calculation gives a negative
amount the payment shall be counted as nil.

Article 2

The carry-over payments referred to in Article 1 (1)
and (2) shall not be made for cereals from the 1983
harvest or for cereals which do not meet the quality
conditions required for intervention during the
1982/83 marketing year.

In respect of rye held by the milling industry at the
end of the marketing year, milling for human
consumption shall be accepted as proof of sufficient
quality.

Article 3

This Regulation shall enter into force on the day
following its publication in the *Official Journal of the
European Communities*.

(¹) OJ No L 281, 1. 11. 1975, p. 1.

(²) OJ No L 164, 14. 6. 1982, p. 1.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
