COM(83) 308 final

Proposal for a
Council Regulation (EEC)

on the transfer of 550.000 tonnes of common wheat of bread-making quality by the French and Germany intervention agencies

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2727/75 of 29 October 1975 on the common organisation of the market in cereals (1), as last amended by Regulation (EEC) No 1451/82 (2) and in particular Article 8(3) thereof,

Having regard to Council Regulation (EEC) No 729/70 of 21 April 1970 on the financing of the common agricultural policy (3), as last amended by Regulation (EEC) No 3509/80 (4), and in particular Article 3(2) thereof,

Having regard to Council Regulation (EEC) No 1146/76 of 17 May 1976 on particular and special intervention measures for cereals (5), and in particular Article 3(3) thereof

Having regard to the proposal from the Commission,

Whereas, as a result of the combined effect of the magnitude of the Community output of cereals in 1982 and the reduction in outlets on the world market, an appreciable increase in stocks of common wheat is expected in the Community's main producing Member States at the end of the 1982/83 marketing year; whereas this situation could cause collection difficulties on the arrival of the 1983/84 cereals' harvest and an obstruction of the intervention machinery by virtue of ^{the} lack of storage capacity available in the Member States in question; whereas, in order to prevent this state of affairs adversely affecting the balance of the market, it is necessary to take appropriate measures to reduce part of those stocks as soon as possible;

Whereas, in view of the shortage of fodder grain in some regions of Italy and the Republic of Ireland the United Kingdom, the Italian Republic the United Kingdom and the Republic of Ireland have applied

to the Commission for the transfer of cereals from Community countries in surplus to deficit regions in their territory; whereas, in view of the situation described above, common wheat held in intervention storage in France and Germany should be transferred for use in animal feed in the regions in question;

Whereas certain detailed rules relating to the acceptance of delivery of the product and the transfer of responsibilities in that respect should be laid down subsequently;

Whereas provisions should be adopted for entering this measure in the accounts in accordance with the procedure provided for in Council Regulation (EEC) No 1883/78 of 2 August 1978 laying down general rules for the financing of interventions by the European Agricultural Guidance and Guarantee Fund, Guarantee Section (1), as last amended by Regulation (EEC) No 1262/82 (2),
