COMMISSION OF THE EUROPEAN COMMUNITIES

COM(78) 352 final

Brussels, 24 July 1978

Proposal for a
COUNCIL REGULATION (EEC)

on the opening, allocation and administration of a
Community tariff quota for certain plywoods of coniferous
species, falling within heading No ex 44.15 of the
Common Customs Tariff (1979)

(submitted to the Council by the Commission)

COM(78) 352 final

EXPLANATORY MEMORANDUM

1. Protocol N° 11 to the Act concerning the Conditions of Accession and the Adjustments to the Treaties ⁽¹⁾ provides for the opening by the Community from 1 January 1974 of autonomous zero duty Community tariff quotas for certain plywoods of coniferous species, the volume thereof to be decided annually when it is established that all possibilities of supply on the internal market of the Community will be exhausted during the period for which the quotas are open. In another context, in the course of the last GATT negotiation, the Community has undertaken to open, for these products, a Community tariff quota of 400.000 cubic metres free from customs duties.
2. This proposed Regulation concerns the Community tariff quotas in question to be opened for 1979 and allocated among Member States.
3. This matter was dealt with at advisory meetings of experts from the Member States held since 1975, at which it became clear that taking into account the possibilities of supply on the Community market, which are in fact somewhat limited, and on the basis of estimates submitted by the Member States, the tariff quotas in question could yet be grouped under a single quota of 700.000 cubic metres for 1979. The size of the quota, fixed on the basis of provisional estimates, remains of course subject to a reexamination of the situation during the quota period.
4. The method of administration proposed is the same as that usually adopted for autonomous Community tariff quotas and consists basically of the following :
 - the setting up of a reserve of 30.000 cubic metres ;
 - the allocation of the first tranche in proportion to the needs expressed by Member States ;
 - the charging of imports against Member States' shares as and when the products are entered with the customs authorities for home use.

This method of administration which was moreover already used since 1975, has been discussed in the course of the meeting of the "Economic tariff problems" group of 11 April 1978, with Member States' experts, who considered that it could be maintained for 1979.

PROPOSAL FOR A

COUNCIL REGULATION (EEC)

on the opening, allocation and administration of a Community tariff quota for certain plywoods of coniferous species falling within heading No ex 44.15 of the Common Customs Tariff (1979)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 28 and 113 thereof,

Having regard to the proposal from the Commission,

Whereas, under Protocol 11 to the Act of Accession⁽¹⁾, the Community is required to open each year nil duty Community tariff quotas for certain plywoods of coniferous species falling within heading No ex 44.15 of the Common Customs Tariff, the volume thereof to be decided annually when it is established that all possibilities of supply on the internal market of the Community have been exhausted during the period for which the quotas are open; whereas, in view of the aforesaid possibilities of supply and on the basis of forecasts of requirements made by the Member States, the volume of the tariff quota to be opened for 1979 may be fixed at 700 000 m³; whereas the opening of the aforementioned tariff quota also covers the commitment entered into by the Community within the GATT to grant in respect of these products an annual duty-free tariff quota of 400 000 m³; whereas the abovementioned requirements do not include imports to which other preferential tariff arrangements may apply; whereas, in view of the relatively small quantities produced in the Community, it is not necessary to apportion this amount between the categories of plywood specified in the abovementioned Protocol 11; whereas the fixing of the volume at 700 000 m³ on the basis of provisional estimates does not exclude an adjustment during the quota year;

Whereas, to take more precise account of future trends in imports of the products concerned, the

(¹) OJ No L 73, 27. 3. 1972, p. 170.

quota should be divided into two tranches, the first being allocated among all the Member States and the second held as a reserve to cover the subsequent requirements of Member States which have exhausted their initial shares; whereas, in order to offer importers some degree of security, the first tranche of the quota should be fixed at a relatively high level, or about 96 % of its full amount; whereas, on the basis of Member States' estimates of their needs, the initial shares may be fixed as set out in Article 2;

Whereas Member States may use up their initial shares at different rates; whereas, to provide for this eventuality and to avoid disruption of supplies, any Member State which has almost used up its initial share should draw an additional share from the reserve; whereas, each time its additional share is almost used up, a Member State should draw an additional share, and so on as many times as the reserve allows; whereas the initial and additional shares should be valid until the end of the quota period; whereas this form of administration requires close collaboration between Member States and the Commission, which latter must, in particular, be able to keep a record of the extent to which the quota has been used up and to inform the Member States accordingly;

Whereas if at a given date in the quota period a considerable quantity of a Member State's initial share remains unused, it is essential that that Member State should return a significant proportion to the reserve so as to avoid a part of the quota remaining unused in one Member State when it could be used in others;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure

concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. For the period 1 January to 31 December 1979 a Community tariff quota of 700 000 m³ shall be opened for the following products falling within heading No ex 44.15 of the Common Customs Tariff:

- (a) plywood of coniferous species, without the addition of other substances, of a thickness greater than 9 mm, the faces of which are not further prepared than the peeling process;
- (b) plywood of coniferous species, without the addition of other substances, sanded, and of a thickness greater than 18.5 mm.

2. Imports of the products in question may not be charged against this tariff quota if they are already free of customs duties under other preferential tariff arrangements.

3. The Common Customs Tariff duty shall be totally suspended within the limits of the above quota.

Article 2

1. The tariff quota referred to in Article 1 (1) shall be divided into two tranches.

2. A first tranche of 670 000 m³ shall be allocated among the Member States; the shares, which subject to Article 5 shall be valid until 31 December 1979, shall be as follows:

	<i>(cubic metres)</i>
Benelux	147.130
Denmark	92.460
Germany	79.870
France	15.140
Ireland	15.950
Italy	25.190
United Kingdom	294.260

3. The second tranche of 30 000 m³ shall constitute the reserve.

Article 3

1. If 90 % or more of a Member State's initial share as fixed in Article 2 (2), or of that share minus any portion returned to the reserve where Article 5 has been applied, has been used up, that Member State shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits,

equal to 10 % of its initial share, rounded up as necessary to the next whole number.

2. If, after its initial share has been exhausted, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in the manner and to the extent provided in paragraph 1, draw a third share equal to 5 % of its initial share, rounded up as necessary to the next whole number.

3. If, after its second share has been exhausted, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in the manner and to the extent provided in paragraph 1, draw a fourth share equal to the third.

This procedure shall apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, Member States may draw lesser shares than those specified therein if there are grounds for believing that those specified may not be used in full. They shall inform the Commission of their reasons for applying this paragraph.

Article 4

Additional shares drawn pursuant to Article 3 shall be valid until 31 December 1979.

Article 5

Member States shall return to the reserve, not later than 1 October 1979, the unused portions of their initial shares which, on 15 September 1979, are in excess of 20 % of the initial amounts. They may return a greater portion if there are grounds for believing that such portion may not be used in full.

Member States shall notify the Commission, not later than 1 October 1979, of the total quantities of the products in question imported up to and including 15 September 1979 and charged against the Community quota and of any portion of their initial shares returned to the reserve.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and, as soon as it has been notified, shall inform each State of the extent to which the reserve has been used up.

It shall inform the Member States, not later than 5 October 1979, of the amount still in reserve after amounts have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve does not exceed the balance available and, to this end, shall notify the amount of that balance to the Member State making the last drawing.

Article 7

1. Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their aggregate shares of the Community quota.
2. Member States shall ensure that importers of the products in question established in their territory have free access to the shares allocated to them.
3. Member States shall charge imports of the products in question against their shares as and when the products are entered with the customs authorities for home use.

4. The extent to which a Member State has used up its share shall be determined on the basis of imports charged against that share in accordance with paragraph 3.

Article 8

At the Commission's request, Member States shall inform it of the imports actually charged against their shares.

Article 9

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 January 1979.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
