# COMMISSION OF THE EUROPEAN COMMUNITIES

COM(78) 161 final.

Brussels, 14 April 1978.

Proposal for a

## COUNCIL REGULATIONS (EEC)

on the opening, allocating and providing for the administration of a Community tariff quota for liqueur wines, falling within heading No ex 22.05 of the Common Customs Tariff, originating in Cyprus

(submitted to the Council by the Commission)

EXPLANATORY MEMORANDUM

1. On April 1978, an additional Protocol to be annexed to the Agreement EEC-Cyprus was initialled. The entry into force of this Protocol is previewed for 1 July 1978.

Article 6 of this Protocol opens, an annual Community tariff quota for 250 000 hl of liqueur wines originating in Cyprus of subheading ex 25.05 C of the CCT at a rate of duty reduced by 70 per cent. The "prorata temporis" clause is applicable.

These wines remaind subject to the provisions which provide for the common organization of the wine market and especially in respect of the reference price which is applicable to them.

2. Under these conditions, it is necessary to open a Community tariff quota, of 125 000 hl covering all these wines at the following duty rates 3.3 u.a./hl, 4.2 u.a./hl, 5.1 u.a./hl and 5.7 u.a./hl for the period of 1 July to 31 December 1978.

However, to avoid any disruption of trade between Cyprus and the Community in this product, it is necessary to anticipate this measure autonomously as from 1 May/1978, that is to maintain continuity with the autonomous tariff measures that the Community has taken in Regulations (EEC) Nos 3016/77 and 533 /78 covering the period 1 January to 30 April 1978.

Because of this the tariff volume to be opened is rised to 41 666 hectolitres.

3. This Regulation provide for the splitting up of the tariff volume into two parts, of which the first will be allocated among the Member States as quota share and the second will be kept as a reserve. In the absence of Community statistics, the initial quota shares have been calculated on the basis of the possible demand on the markets of the various Member States.

./.

4. Because of the inherent particularities in the trade in these wines which, additionally, are different from one Member State to another, the provisions of the Regulation, exceptionnally, do not lay down a common method of administration.

Proposal for a  
COUNCIL REGULATION (EEC) No .../78

of .....

opening, allocating and providing for the administration of a  
Community tariff quota for liqueur wines falling within sub-  
heading No ex 22.05 C of the Common Customs Tariff,  
originating in Cyprus

THE COUNCIL OF THE EUROPEAN  
COMMUNITIES,

Having regard to the Treaty establishing the European  
Economic Community, and in particular Article  
113 thereof,

Having regard to the proposal from the Commission,

Whereas, a supplementary Protocol to be annexed to the Agreement  
establishing an association between the European Economic Community  
and the Republic of Cyprus (2) was initialled on 7 April 1978;  
whereas the entry into force of this Protocol is expected to occur on  
1 July 1978; whereas Article 6 of this Protocol provides for the  
opening of an annual Community tariff quota of 250 000 hectolitres  
of liqueur wines originating in Cyprus of subheading ex 22.05 C  
of the Common Customs Tariff at rates of customs duty equal to  
30% of the Common Customs Tariff duties; whereas  
the prorata temporis clause is applicable;

Whereas, in order to avoid a disruption of the trade in this  
product between Cyprus and the Community, it is necessary to  
anticipate the application of this tariff measure autonomously  
with effect from 1 May until 30 June 1978 so as to maintain continuity with the  
autonomous measures that the Community has taken under Regulations  
(EEC) Nos 3016/77 (3) and 533/78 (4) for the  
period 1 January to 30 April 1978; whereas under these  
circumstances it is necessary to open a Community tariff quota  
of 41 666 hectolitres for the period 1 May to 30 June 1978.

(2) OJ No L 355 of 31.12.1977, p. 38

(3) OJ No L 74 of 16.3.1978, p. 5

Whereas these wines remain subject to the provisions governing the common organization of the market in wine products, especially as regards observance of the reference price; whereas inclusion in the Community tariff quota should be subject to production of movement certificate

A CY 1 and to the condition that these wines are described in the V.I.I. document provided for in Regulation (EEC) No 2115/76 (1) as "liqueur wines".

Whereas Council Regulation (EEC) No 2506/75 of 29 September 1975 laying down special rules for the importation of products in the wine-growing sector originating in certain third countries<sup>(2)</sup>, introduced the idea of a free-at-frontier reference price, being the reference price less customs duties actually levied;

Whereas, special reasons inherent in the method of production and distribution of the product, the import into the Community of these wines is largely carried out during the last months of the year; whereas in consequence the quotas opened for the period 1 January to 30 April 1978 have not been entirely used up; whereas, by way of exception, it is necessary to provide for the amount remaining from this period to be taken into consideration with a view to being used during the period of validity of this Regulation;

(1) OJ No L 237, 28.8.1976, p. 1.

(2) OJ No L 256, 2.10.1975, p. 1.

Whereas it is in particular necessary to ensure for all Community importers equal and uninterrupted access to the abovementioned quota and uninterrupted application of the rates laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas, having regard to the principles mentioned above, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, in order to reflect more accurately the actual development of the market in the products concerned, such allocation should be in proportion to the needs of the Member States, assessed by reference to both the statistics of each State's imports of the said products from / over a representative period and the economic outlook for the quota period concerned;

/Cyprus

Whereas in this case, however, neither Community nor national statistics showing the breakdown for each of the types of wines in question are available and no reliable estimates of future imports can be made; whereas, in these circumstances, the quota volumes should be allocated in initial shares, taking into account demand for these wines on the markets of the various Member States;

Whereas, in order to take into account import trends for the products concerned in the different Member States, the quota amount should be divided into two tranches, the first tranche being allocated among the Member States and the second forming a reserve intended ultimately to cover the requirements of the Member States which have used up their initial quota shares; whereas, in order to ensure a certain degree of security to importers in each Member State, the first tranche of the Community quota should be determined at a level which, under present circumstances, may be approximately 90% of the quota amount;

Whereas the initial shares of the Member States may be used up at different times; whereas, in order to take this fact into account and avoid any break in continuity, it is important that any Member State having used up almost the whole of its initial shares should draw an additional share from the reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up, and repeated as many times as the reserve allows; whereas the initial and additional shares must be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which the quota amount is used and inform Member States thereof;

Whereas, if at a specified date in the quota period, a considerable balance remains in one or other Member State it is essential that that Member State pays a large amount of it back into the reserve, in order to avoid a part of the Community quota remaining unused in one Member State when it could be used in others;

Whereas since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union all transactions concerning the administration of shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

#### *Article 2*

1. The Community tariff quota referred to in Article 1 shall be divided into two tranches.

2. The first tranche, amounting to 37 500 hectolitres, shall be shared among the Member States; the proportions which, subject to Article 5, shall be valid until 30 June 1978, shall be as follows:

Benelux	1 870

*Article 3*

1. If 90 % or more of the initial share of a Member State, as laid down in Article 2 (2), or 90 % of that share less the amount returned into the reserve, where the provisions of Article 5 have been applied, has been exhausted, that Member State shall proceed without delay, by notifying the Commission, to draw a second share equal to 15 % of its initial share, rounded up to the next unit where appropriate, to the extent that the amount in the reserve allows.

2. If, after its initial share has been exhausted, 90 % or more of the second share drawn by a Member State has been used, that Member State shall proceed, in the manner specified in paragraph 1, to draw a third share equal to 7.5 % of its initial share, rounded up to the next unit where appropriate, to the extent that the amount in the reserve allows.

3. If, after its second share has been exhausted, 90 % or more of the third share drawn by a Member State has been used, that Member State shall proceed, in the same way, to draw a fourth share equal to the third.

This process shall be applied until the reserve is exhausted.

4. Notwithstanding the provisions of paragraphs 1, 2 and 3, the Member States may proceed to draw shares smaller than those fixed in those paragraphs if there is reason to believe that they might not be used up. Each Member State shall, not later than 15 June 1978, notify the Commission of the total imports of the products concerned effected up to 10 June 1978 inclusive, and charged against the Community quota and, where appropriate, the proportion of its initial share that is being returned to the reserve.

#### Article 6

The Commission shall keep account of the shares opened by Member States in accordance with Articles 2 and 3 and shall inform each of them of the extent to which the reserve has been used as soon as it receives the notifications.

The Commission shall, not later than 20 June 1978, notify Member States of the amount in the reserve after the return of shares pursuant to Article 5.
